Pricing Models

Fixed Pricing Model

A fixed pricing model, also known as a fixed-price model or a flat-rate pricing model, is a pricing strategy used in various industries, including the IT and service sectors.

Long Term Collaboration

DREs are typically long-term engagements, often spanning several months or even years. This model fosters a deeper understanding of the client's business needs and objectives.

Cost Efficiency

While DREs may seem costlier than other engagement models initially, they often result in cost savings in the long run. Clients avoid the overhead costs associated with hiring and training in-house staff and can quickly adapt to changing project needs.

Collaborative Partnerships

DREs often foster strong partnerships between the client and the IT service provider. This collaboration can lead to better communication, understanding, and alignment of goals.

Flexibility

DREs in web development offer flexibility in terms of resource allocation. Clients can scale the size of the dedicated team up or down based on project requirements. This scalability is particularly useful for managing dynamic project needs.

Communication

Effective communication is crucial in a DRE for web development. Clients and the dedicated team need to establish clear channels of communication to ensure seamless collaboration, share updates, and address issues promptly.

Our Culture

Allen Flower Market

www.allensflowermarket.com

Business Challenge

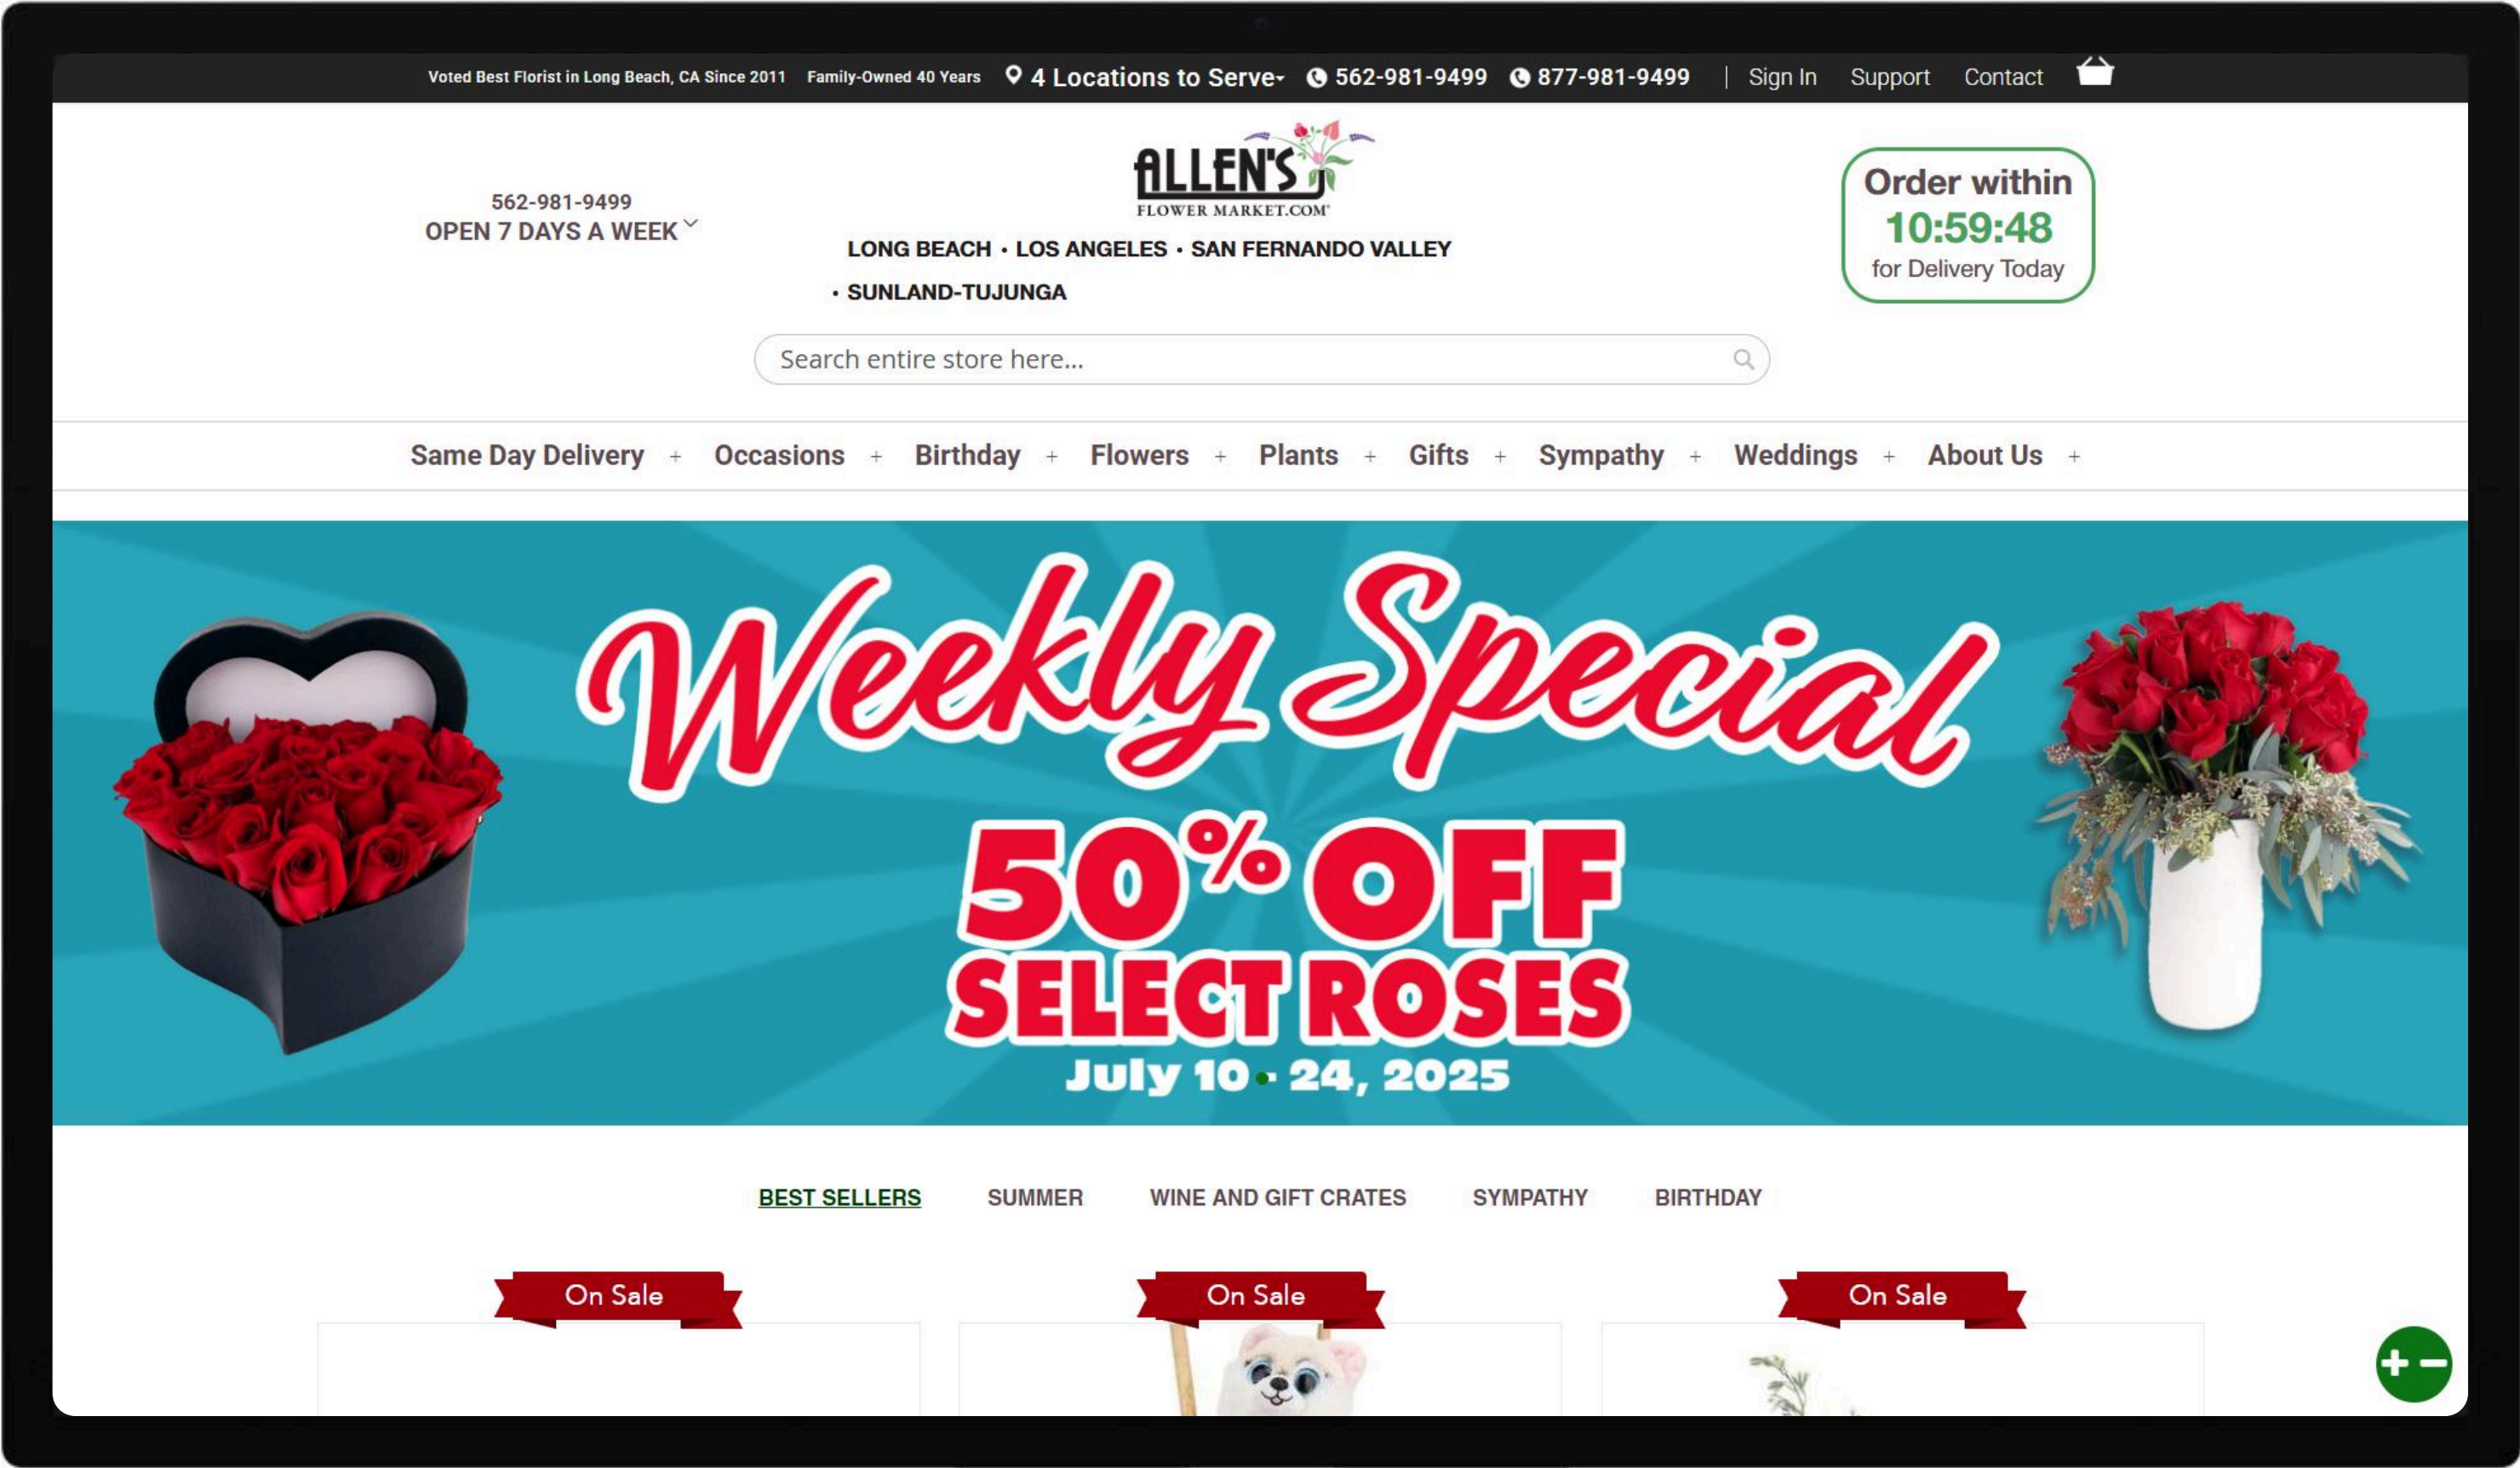

Allen’s Flowers is an online flower shop where you can purchase any kind of flowers. Allen Flower is a leading grower & supplier of flowers plants, chocolates, gifts and basket garden in the USA. Along with the retail plants, wholesale trading is also a part of their business..

Solutions

To elevate Allen’s Flower Market’s digital presence and support their expansion as a multi-location floral business, Cosmonaut Technologies delivered a robust and user-friendly eCommerce platform tailored to their needs. The website was built with seamless navigation, strong product categorization (flowers, gifts, plants, and sympathy arrangements), and real-time delivery tracking functionality.

“

Racquet 4U

www.racquets4u.com

Business Challenge

Racquets4U is an online sports store specializing in racquet-based games like tennis, badminton, squash, padel, and pickleball. It offers a wide range of racquets, accessories, shoes, and clothing. The brand aimed to provide a dedicated platform for athletes and enthusiasts, with expert content, competitive pricing, and exclusive coach discounts.

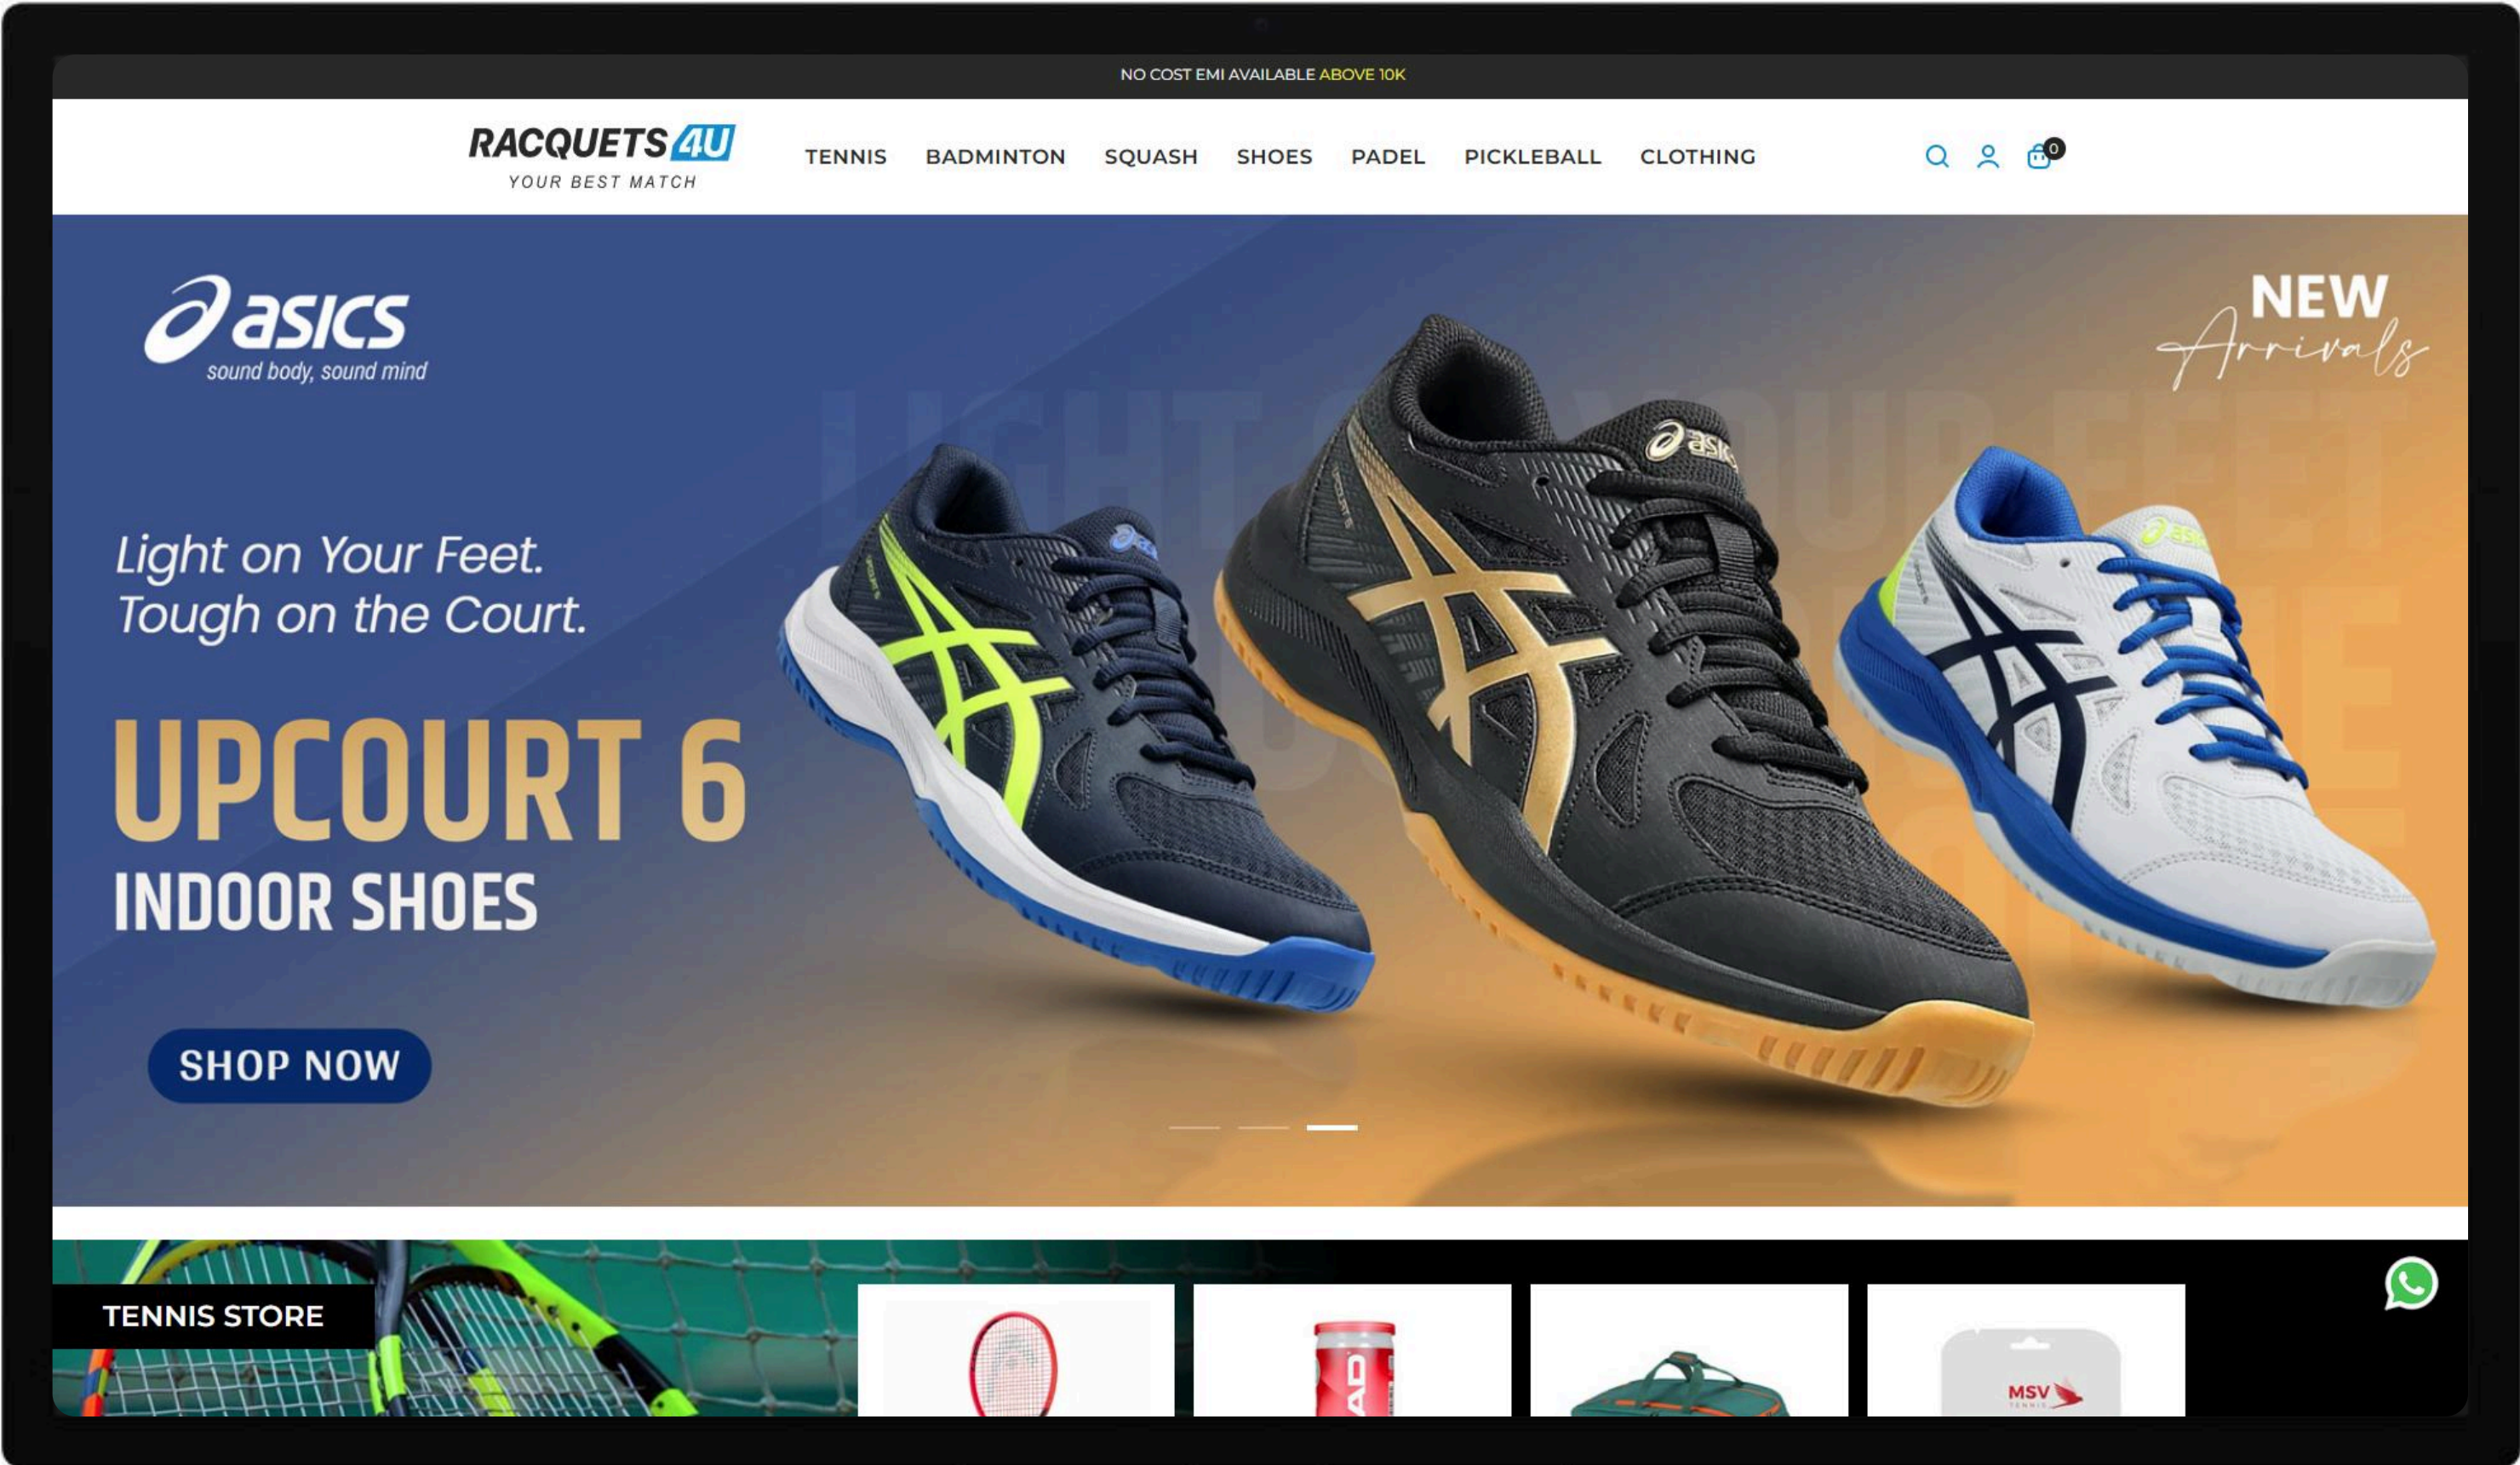

Solutions

To strengthen Racquets4U’s digital identity and streamline their online sales process, Cosmonaut Technologies developed a user-focused and scalable eCommerce platform. The website includes intuitive navigation, detailed product filters (by sport, brand, and use case), and integrated features like no-cost EMI, blogs, and special promotions.

“

DSC Cricket

www.dsc-cricket.com

Business Challenge

DSC is a globally recognized cricket brand built on decades of craftsmanship, innovation, and trust. The brand required a powerful digital platform to showcase its extensive product range—bats, gear, shoes, helmets, and custom kits—while also delivering a premium experience to both amateur and professional cricketers.

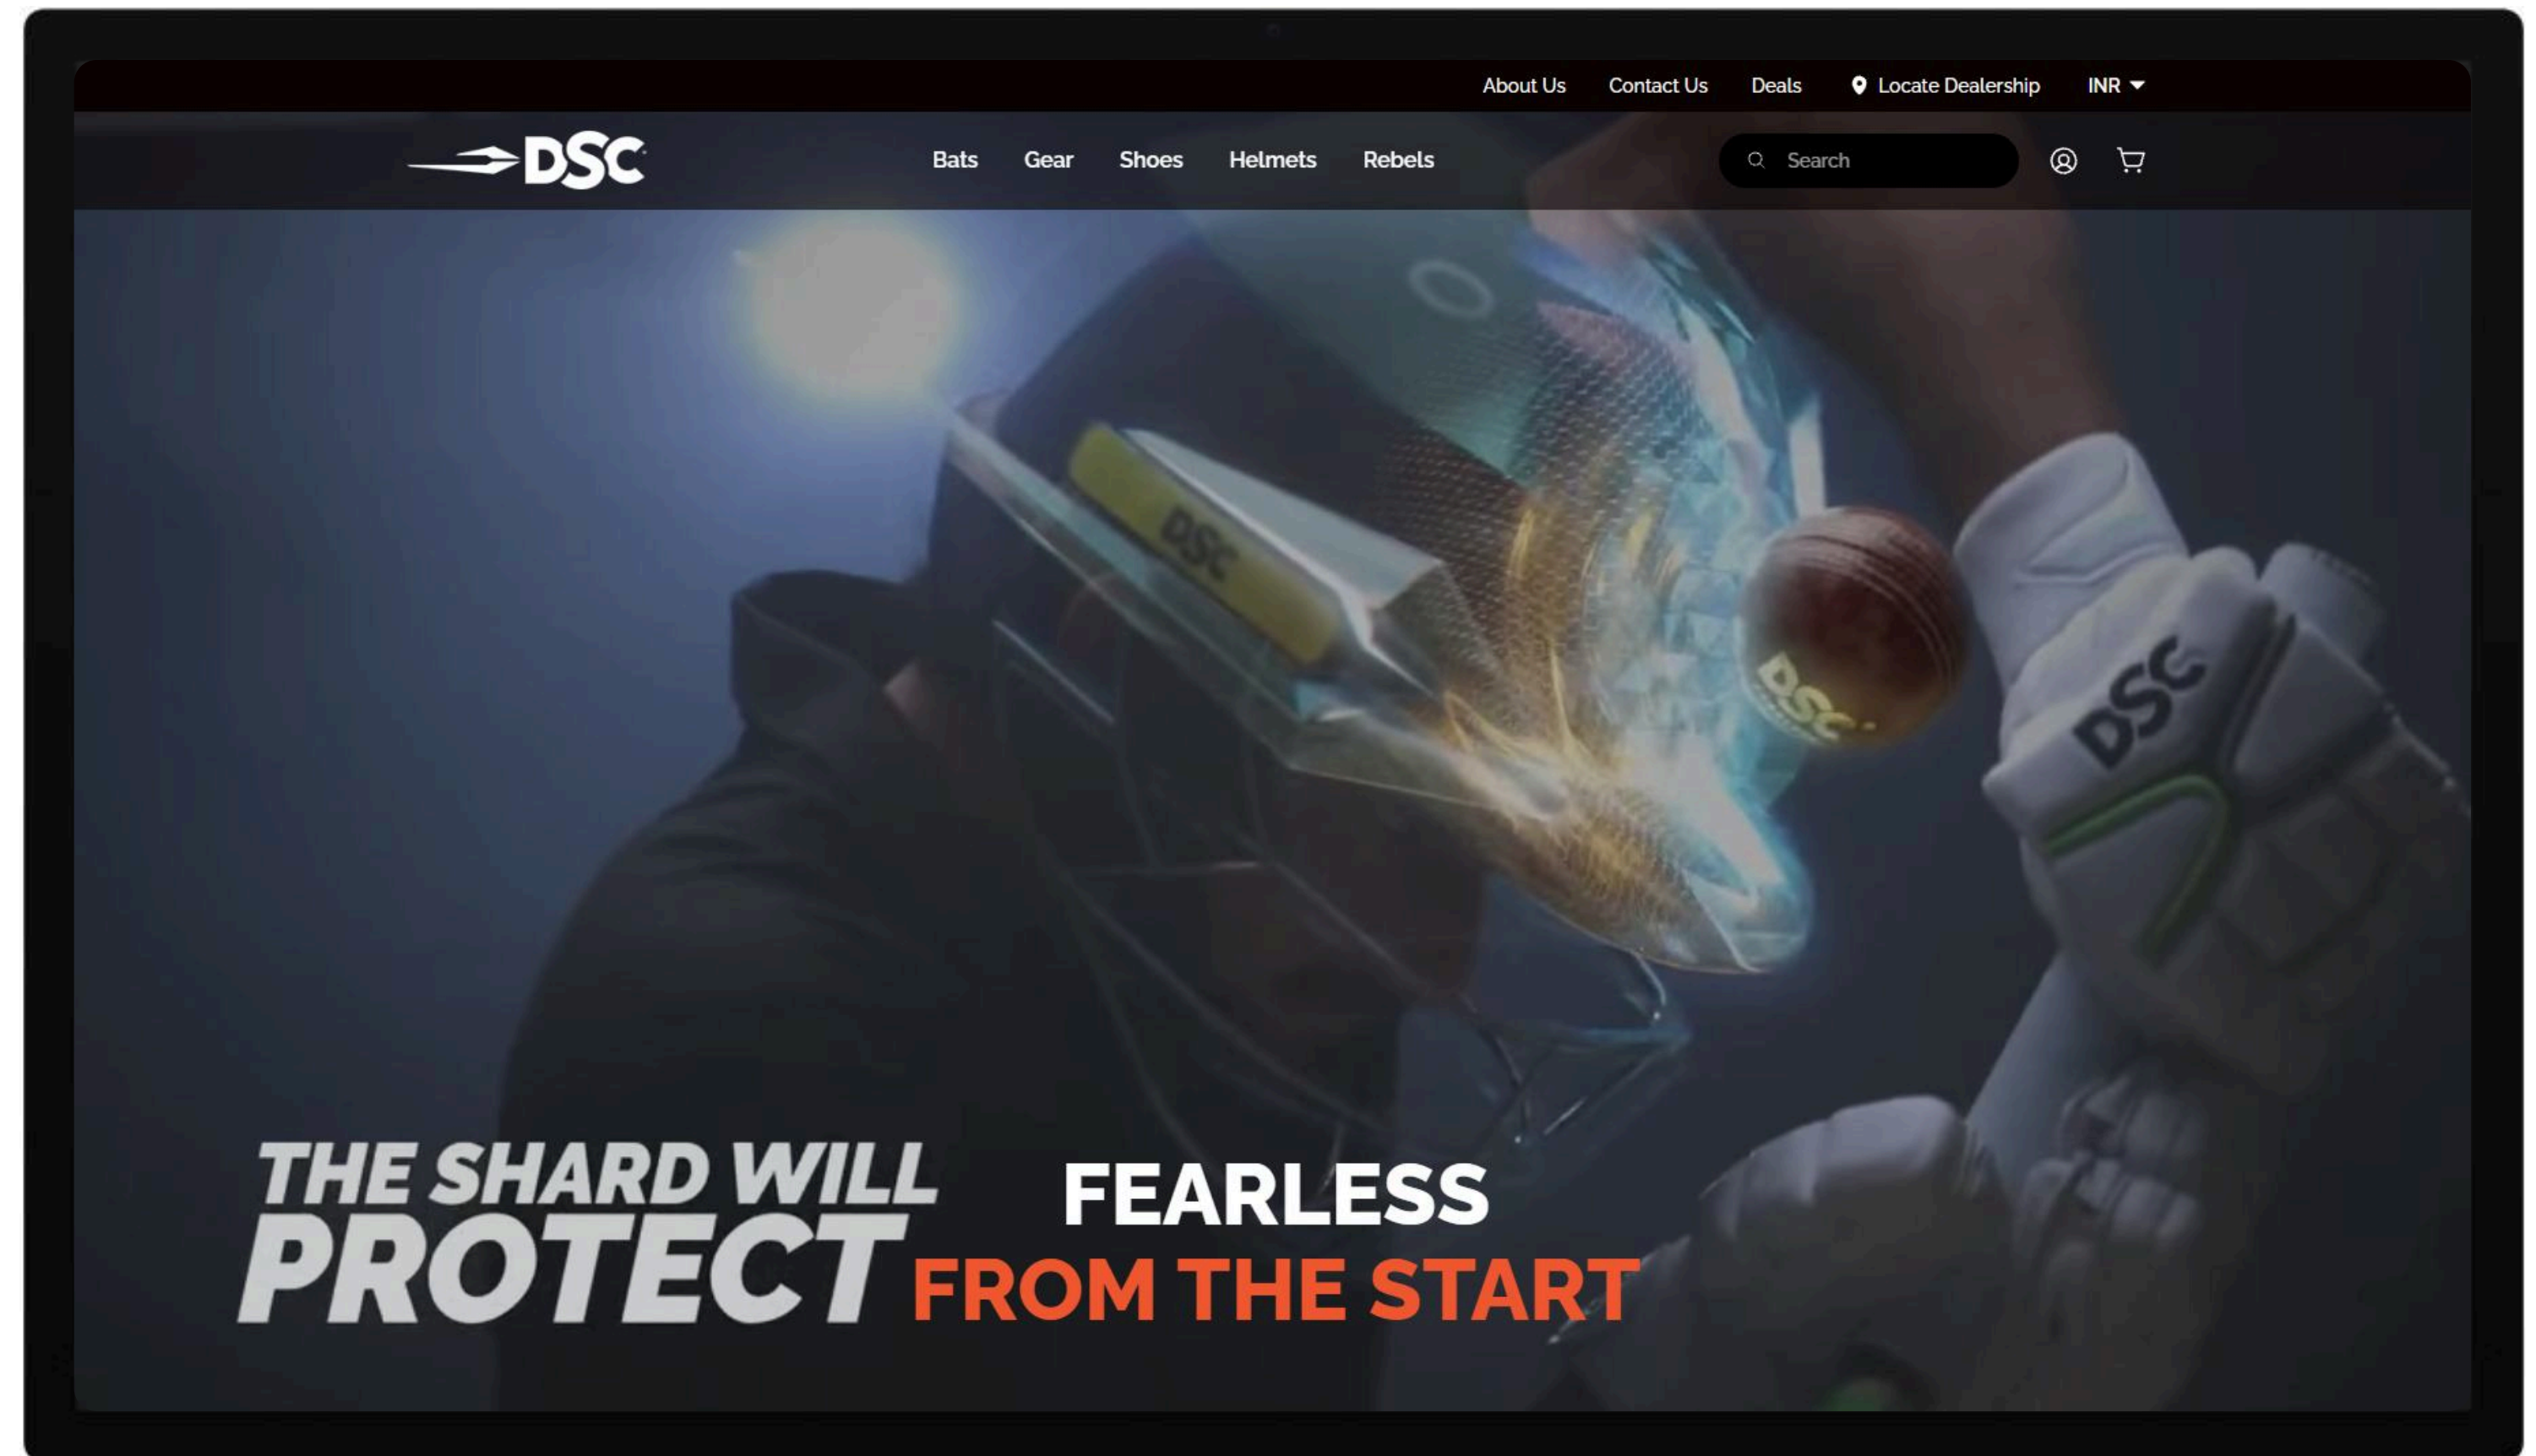

Solutions

Cosmonaut Technologies developed a modern, high-performance eCommerce platform tailored for DSC's wide audience. The site includes curated collections by player type, custom product configurators (for bats and helmets), and real-time inventory features. Seamless navigation, responsive design, and integrations for influencer gear, reviews.

“

Thunder Gaming

www.thundergaming.com

Business Challenge

Thunder Studios, based in Long Beach, CA, offers an unmatched combination of event production, esports broadcasting, metaverse experiences, and talent management. Serving top brands and creators, they needed a bold, tech-forward digital presence to showcase their venue capabilities, service range, and past projects—all while streamlining client inquiries and collaboration.

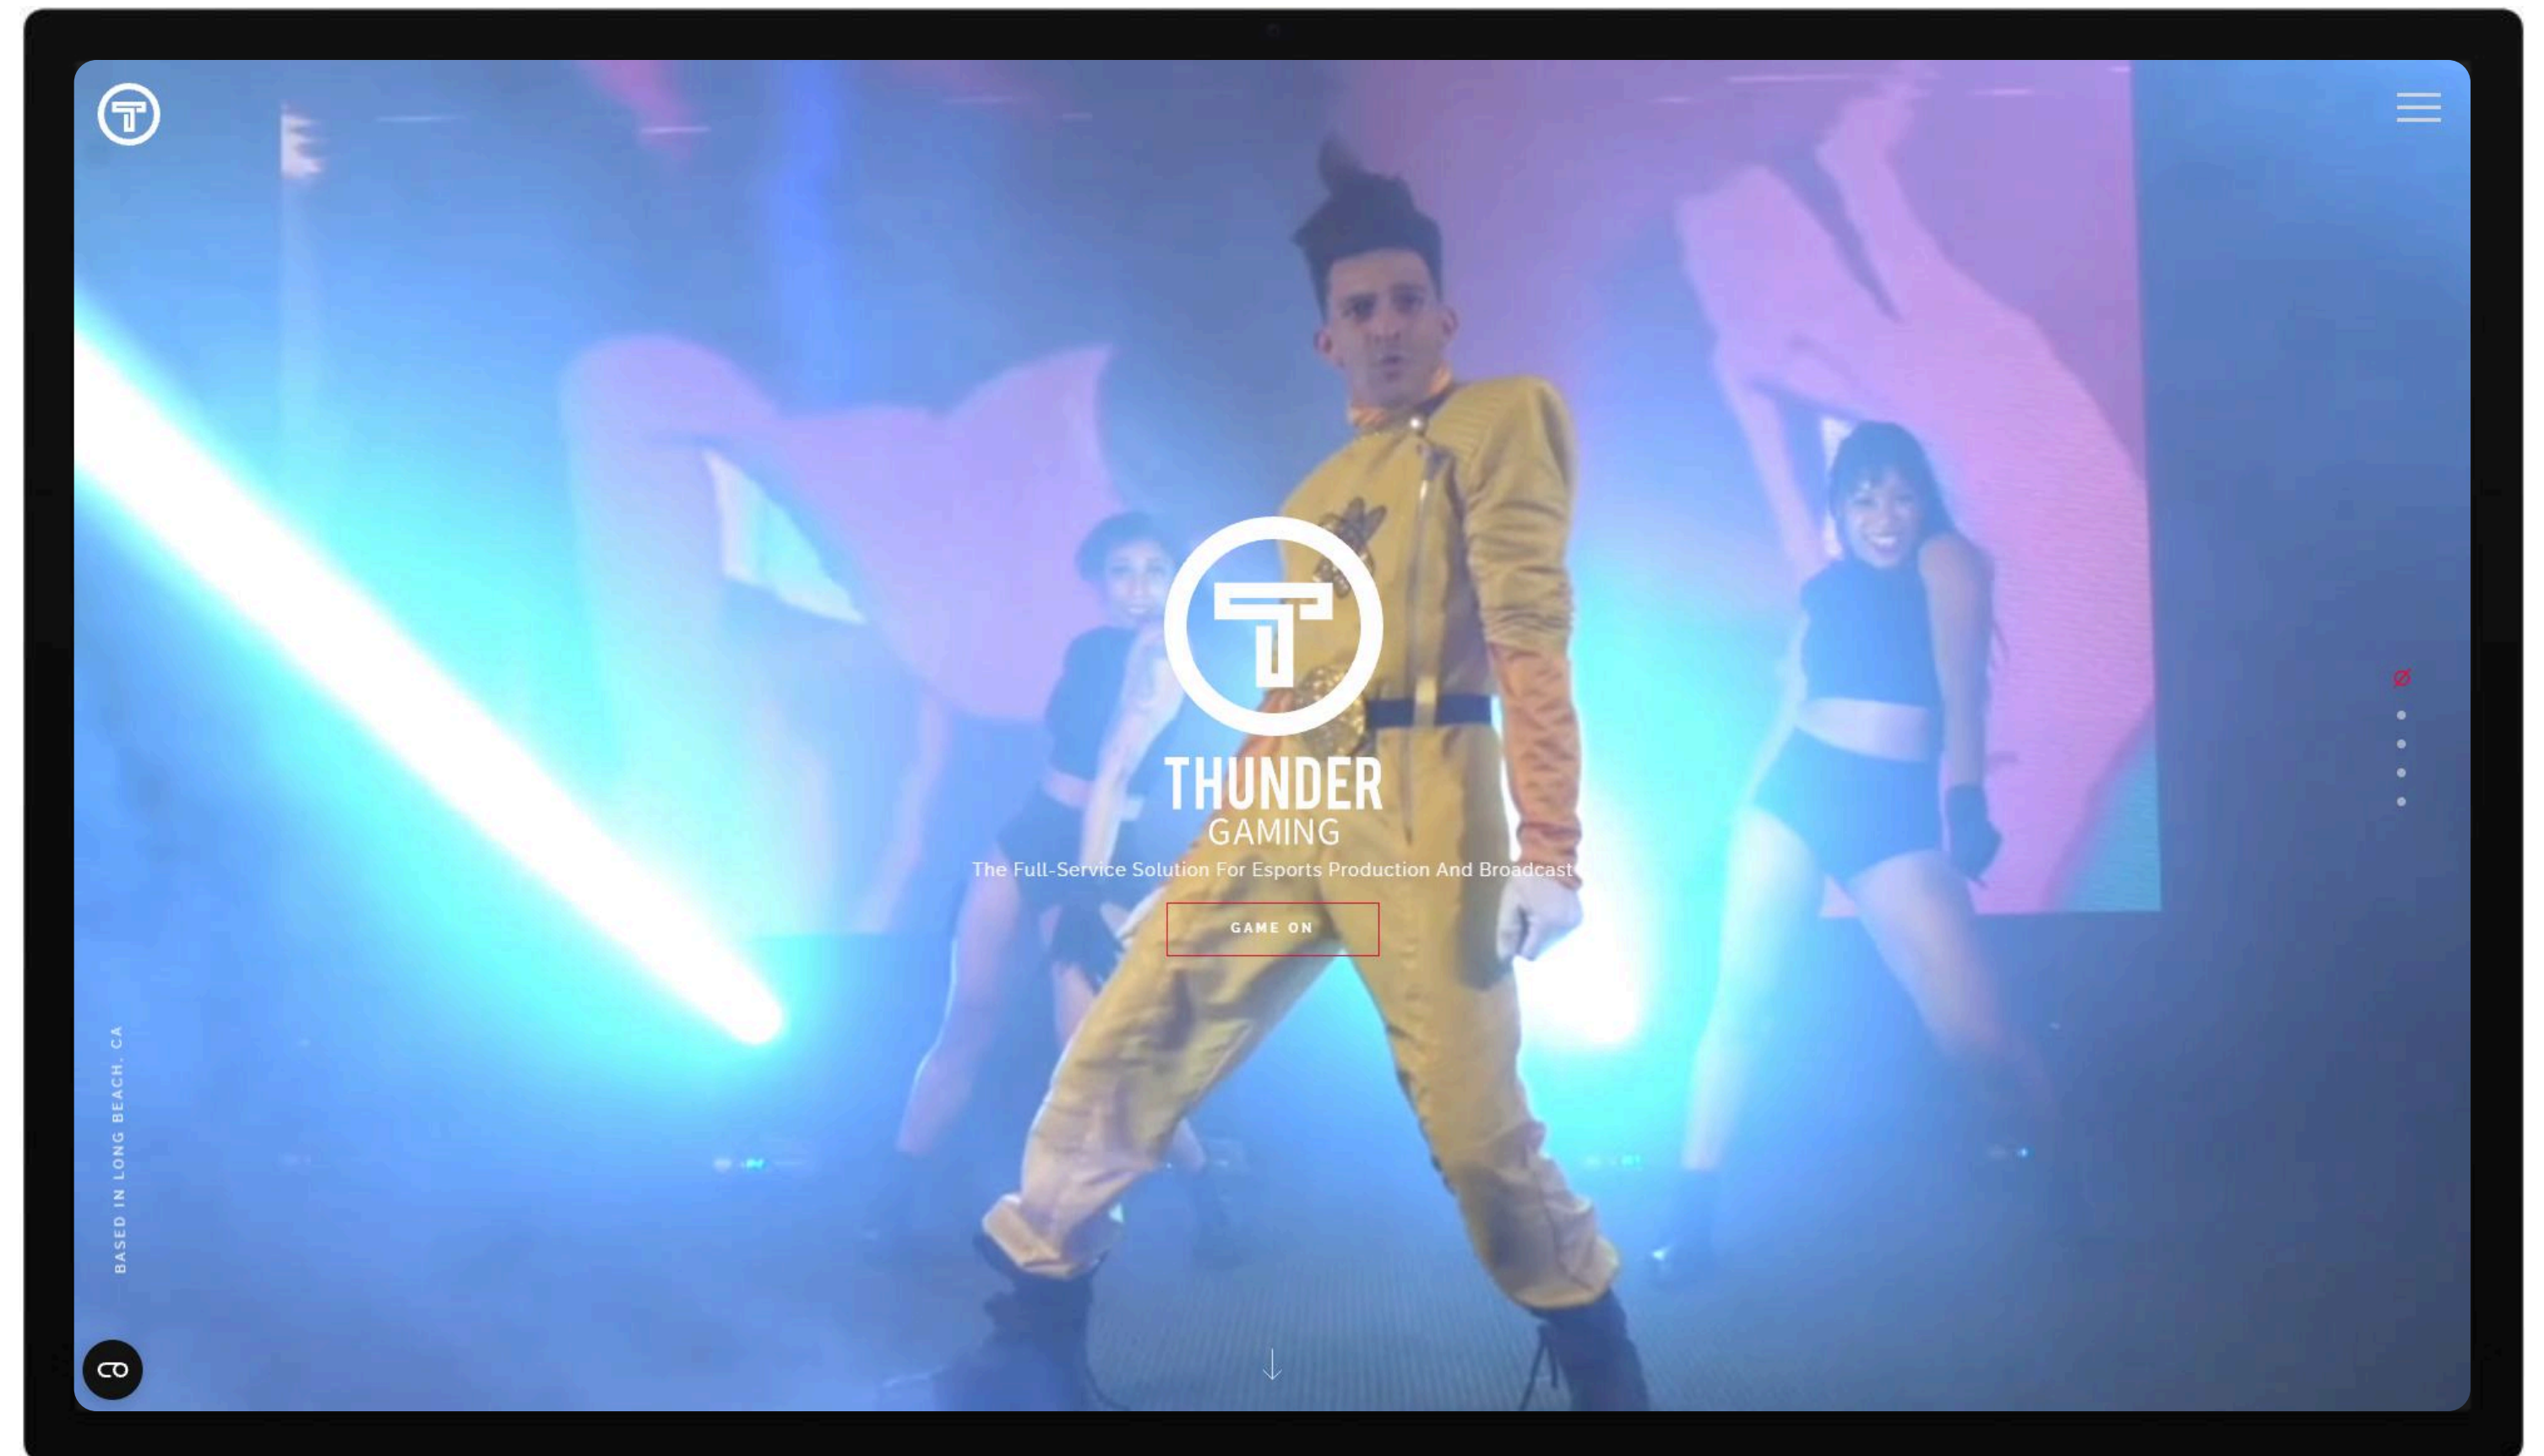

Solutions

Cosmonaut Technologies built a dynamic and immersive website for Thunder Studios that highlights their unique mix of physical production spaces and virtual service offerings. From esports arenas and XR stages to mobile broadcasting and turnkey events, each service was structured for quick discovery and visual appeal.

Infinite Reality

www.theinfinitereality.com

Business Challenge

Infinite Reality (parent of Napster) is pioneering immersive experiences using spatial computing, AI, and advanced digital media technologies. With a portfolio spanning music, 3D studio tools, virtual spaces, and enterprise offerings, they needed a high-impact digital platform to unify their brand story, showcase innovation, and engage partners, investors, and creators across industries.

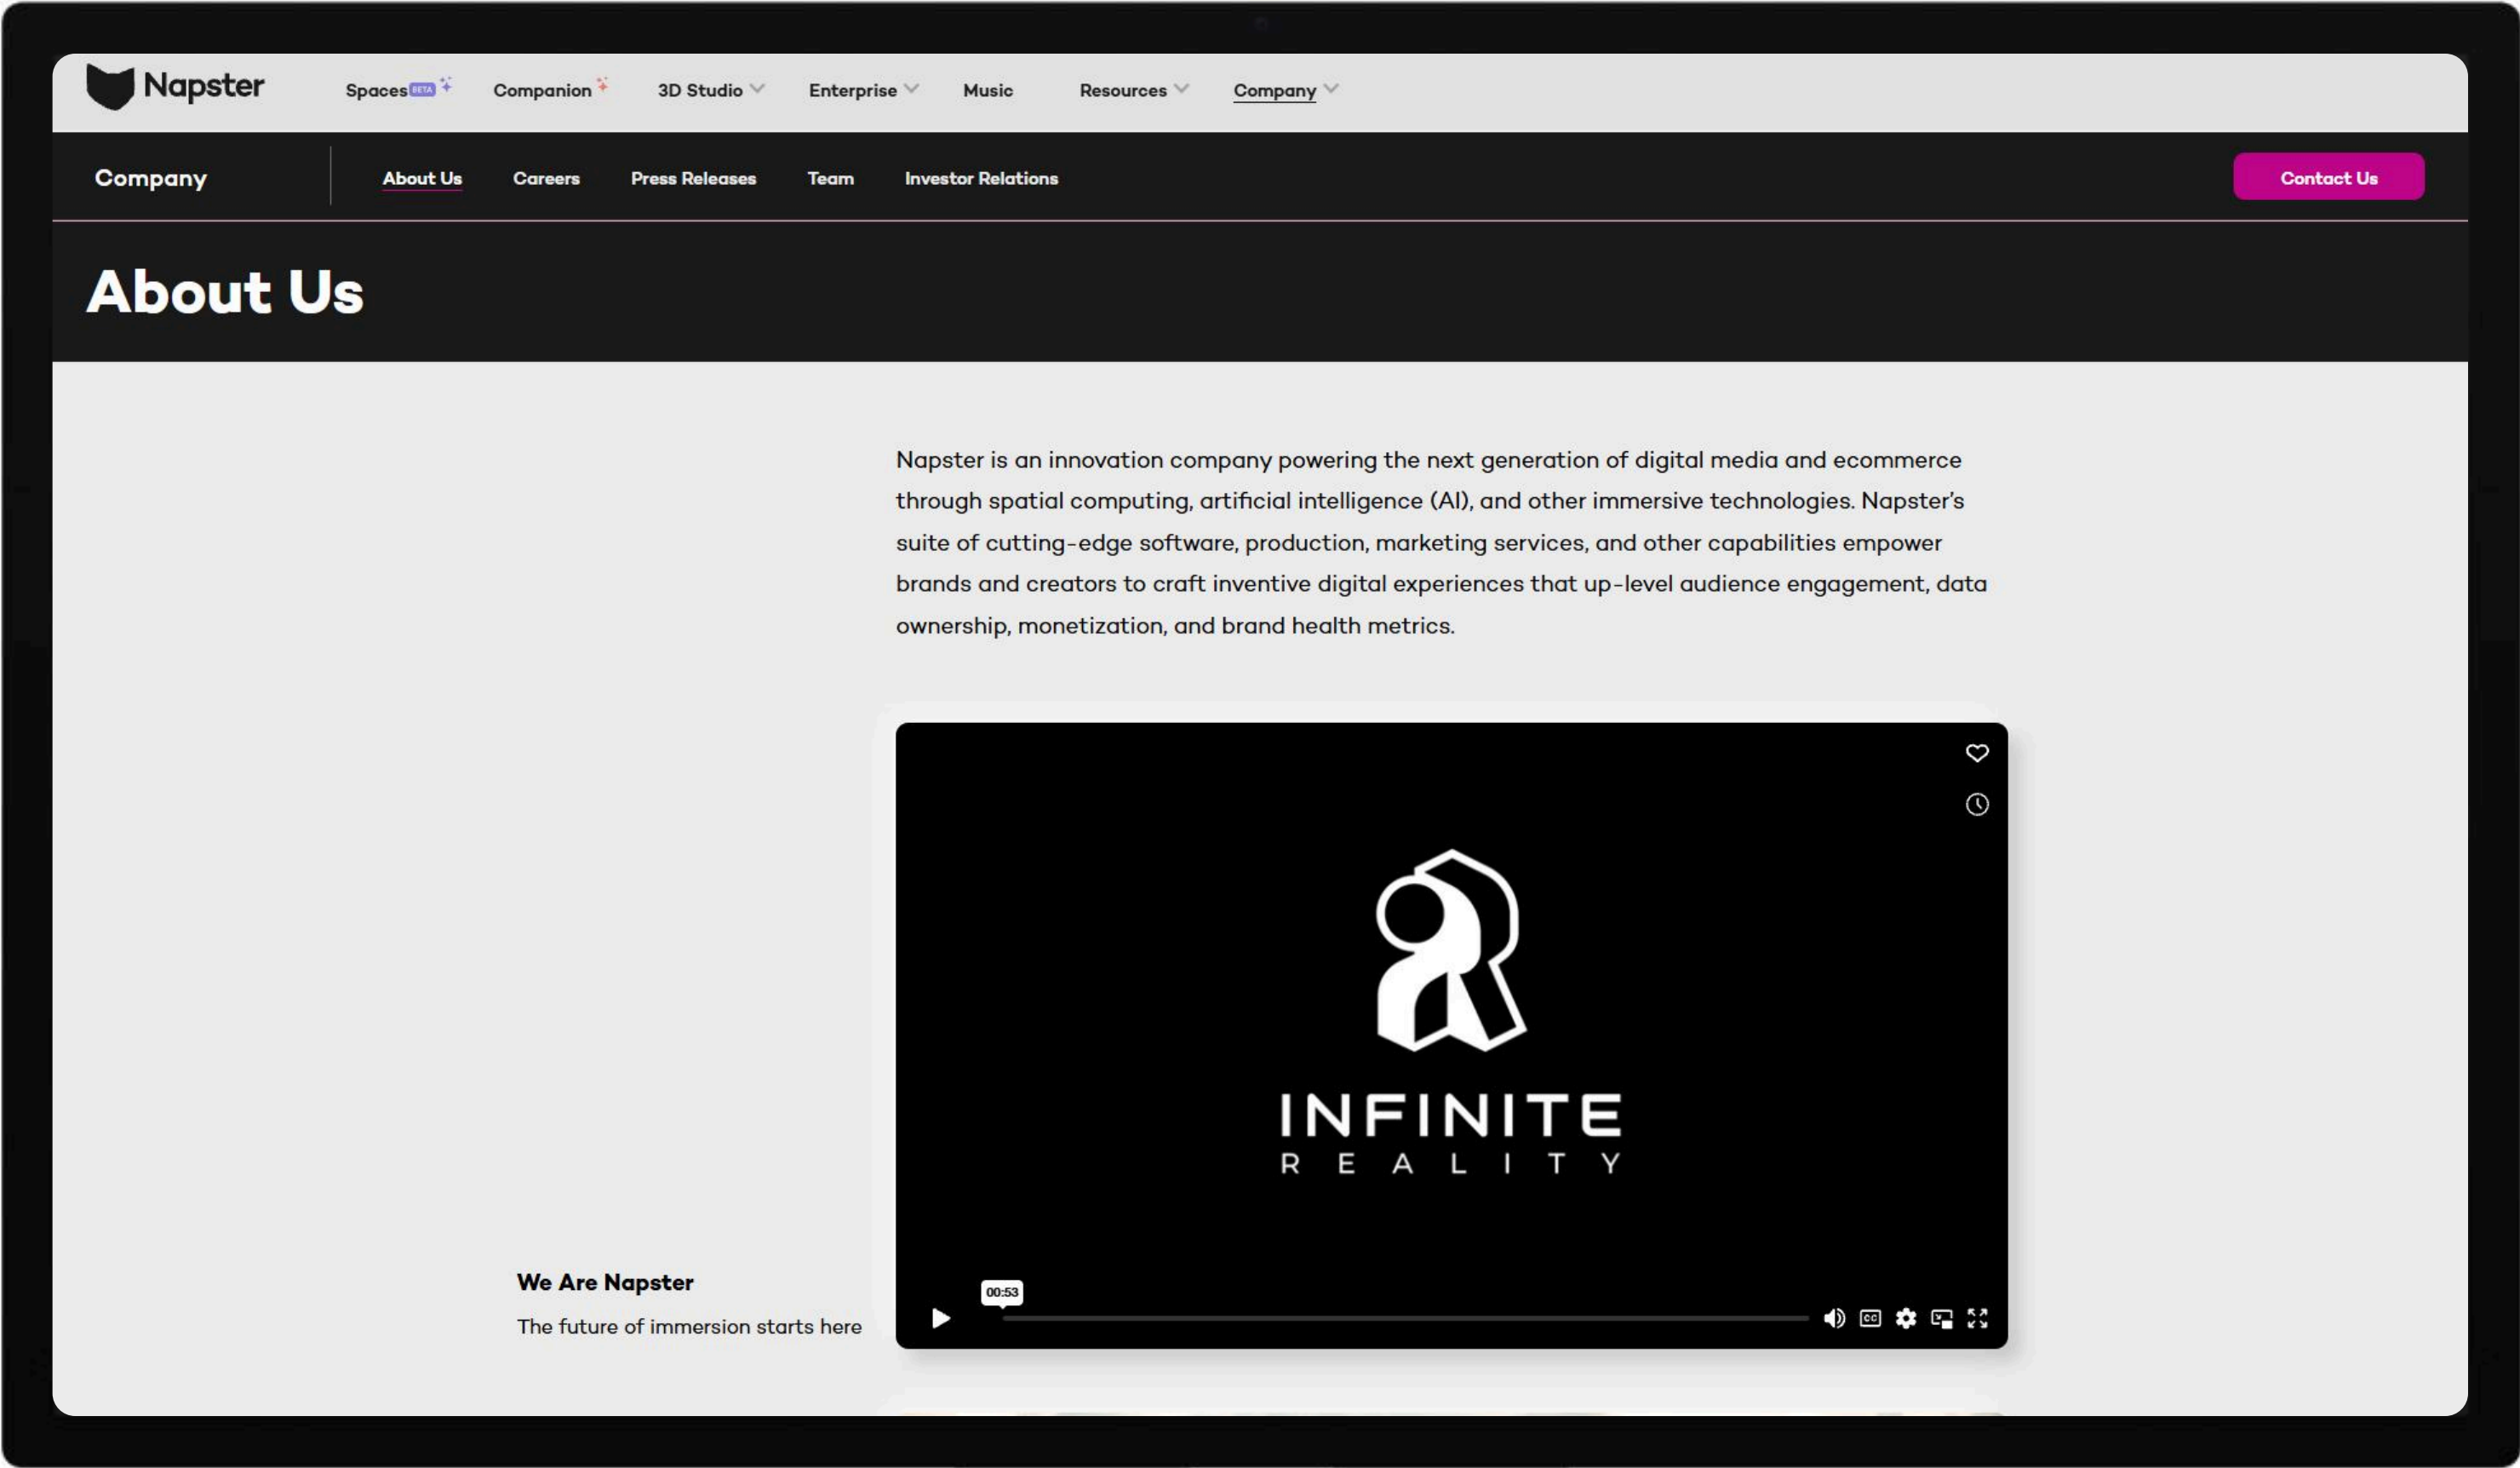

Solutions

Cosmonaut Technologies created a sleek and scalable website for Infinite Reality that reflects its position at the forefront of immersive tech. The site features clear navigation across brands and services, compelling storytelling for each product line, and a design system that highlights innovation and thought leadership.

Long Beach Local

www.longbeachlocalapp.com

Business Challenge

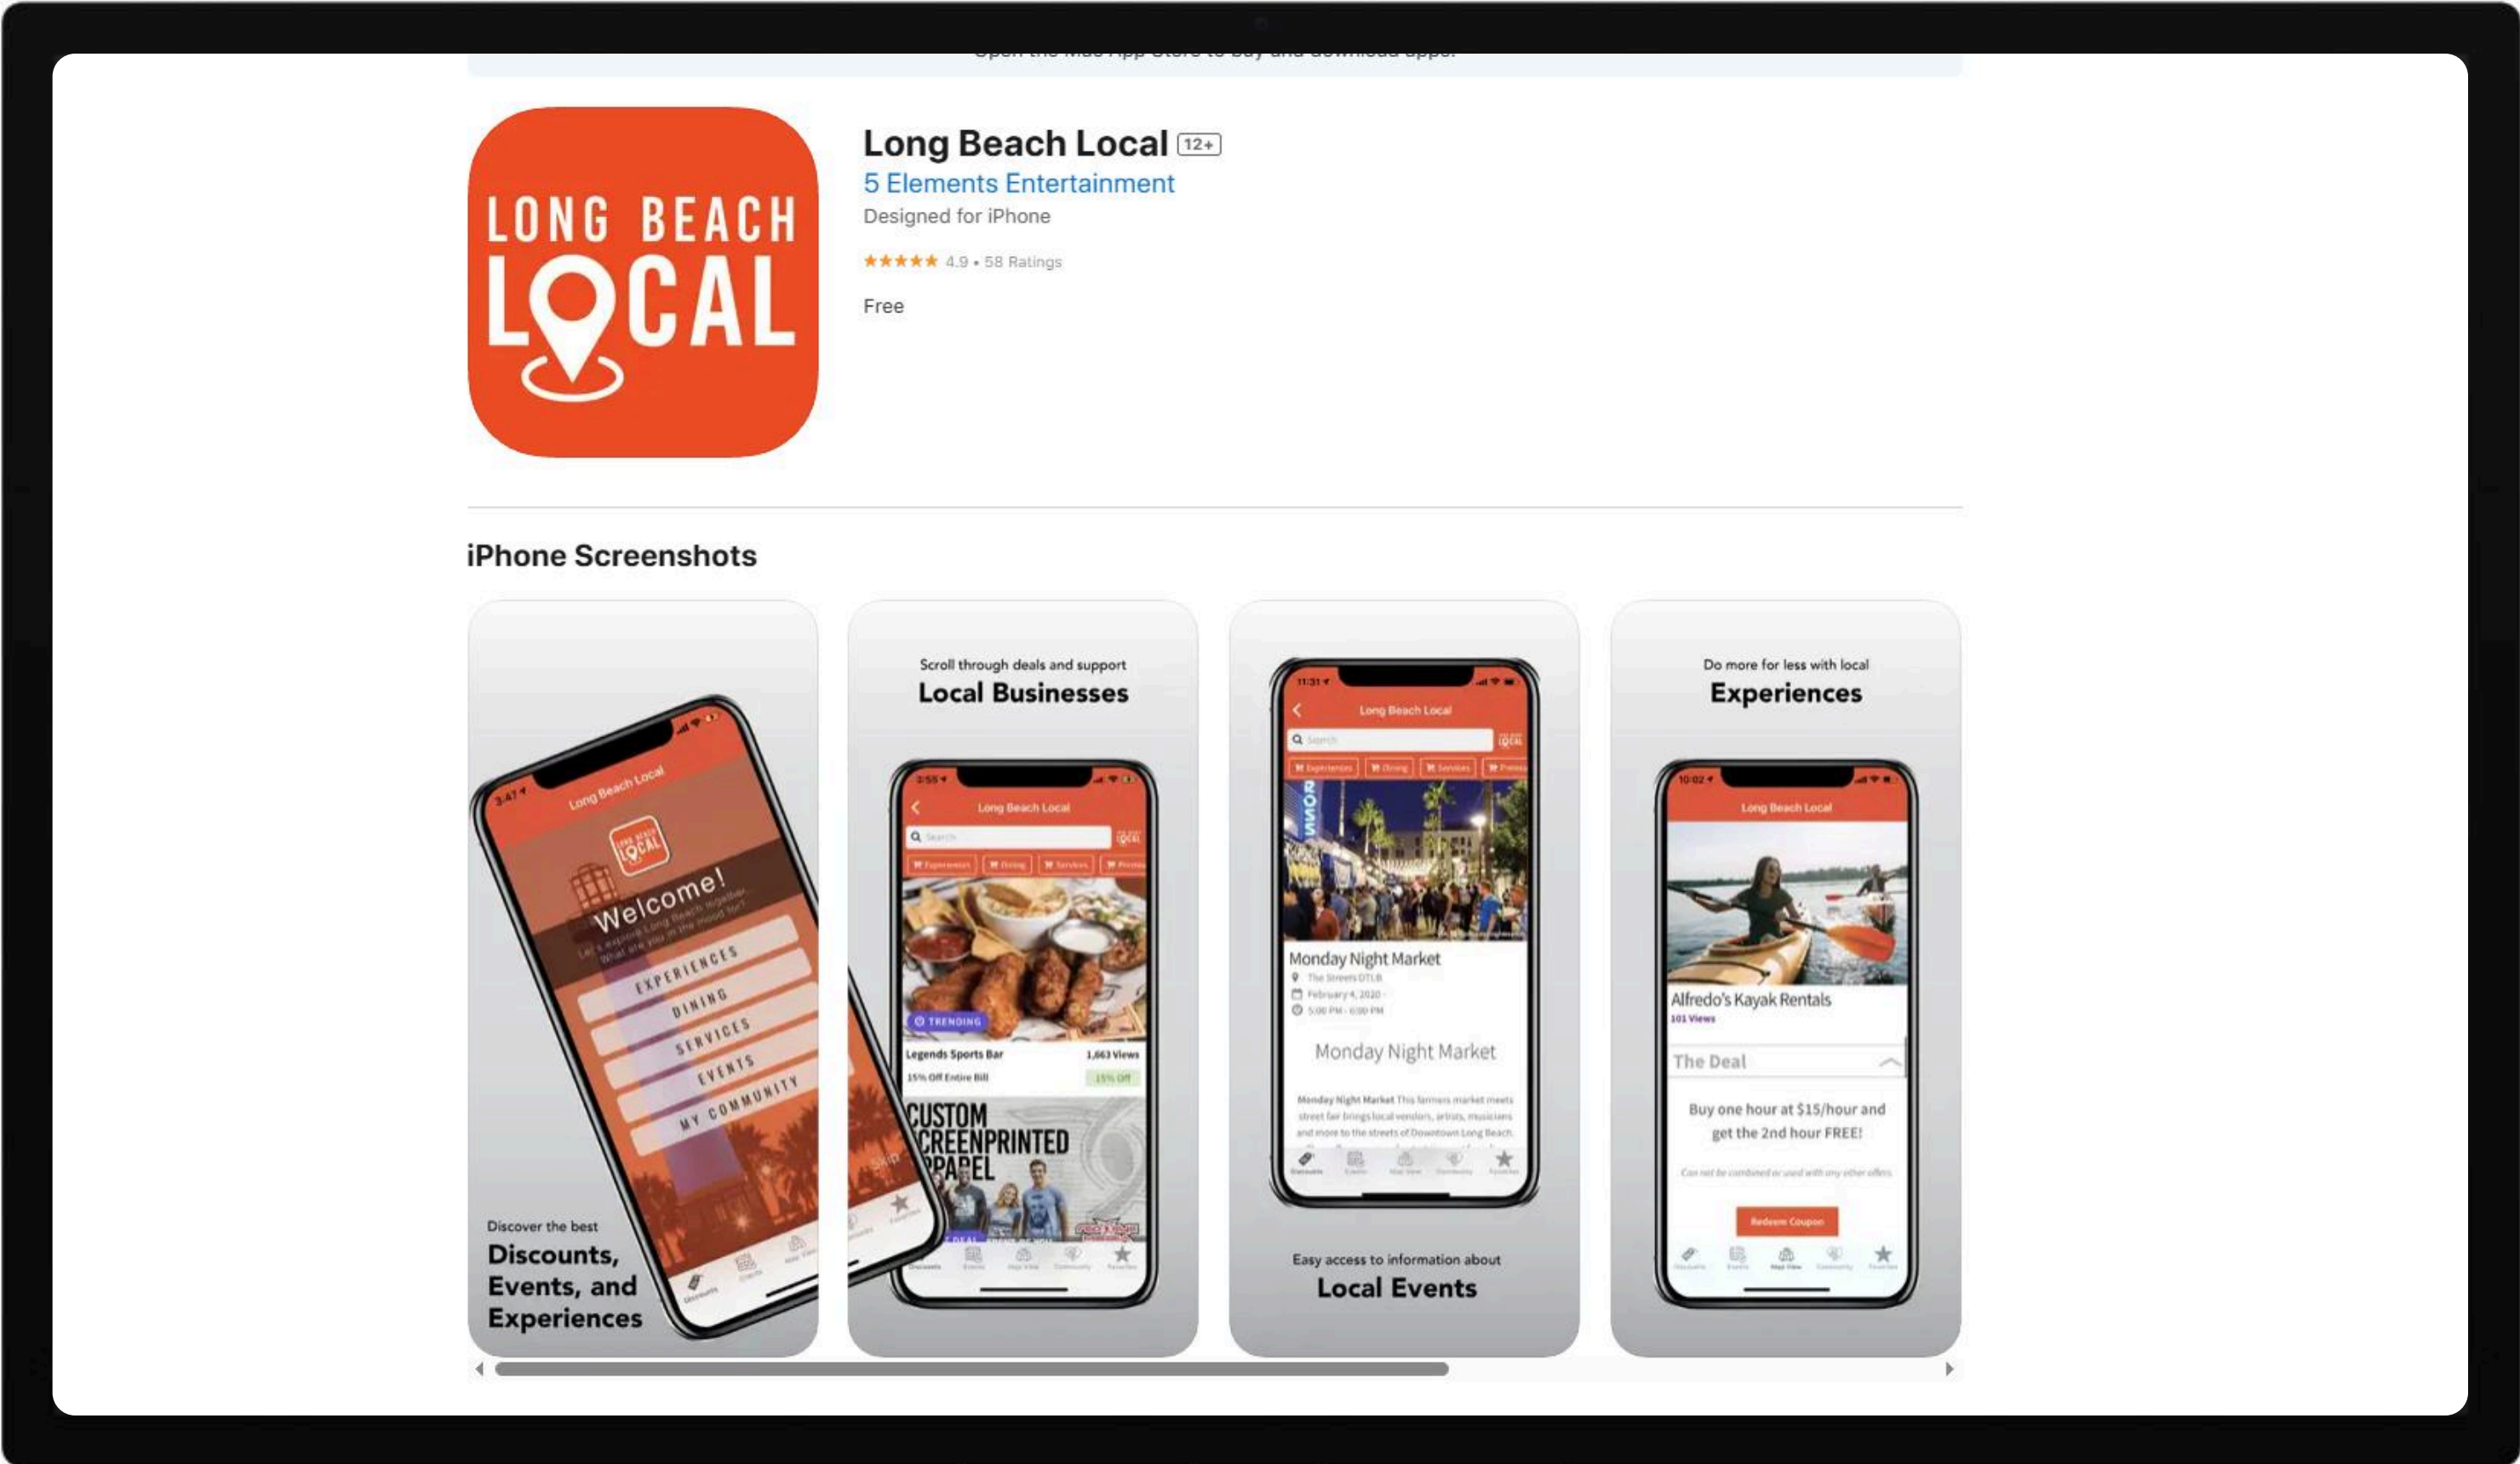

Long Beach Local is a lifestyle app designed to help residents and visitors explore the city with ease—from discounts and events to community services. The team needed a mobile-first digital product that combined functionality with simplicity, offering location-based features, content freshness, and a community-first approach—all while standing out in crowded app stores.

Solutions

Cosmonaut Technologies designed and developed an intuitive, modern mobile app that puts Long Beach at users' fingertips. With seamless map integration, real-time event listings, and local discounts in a clean UI, the app enhances everyday living. Community tools like emergency contacts and city leader info make it more than a guide—it's a go-to resource for locals.

Square Deal Market

www.squaredealmarket.com

Business Challenge

Square Deal Market is positioned as a unique employee benefit platform offering no-interest, low-payment financing with no credit checks. The challenge was to create a secure, easy-to-navigate web portal where employees could explore exclusive offers, enroll for benefits, and manage their purchases—all while meeting compliance, accessibility, and privacy standards.

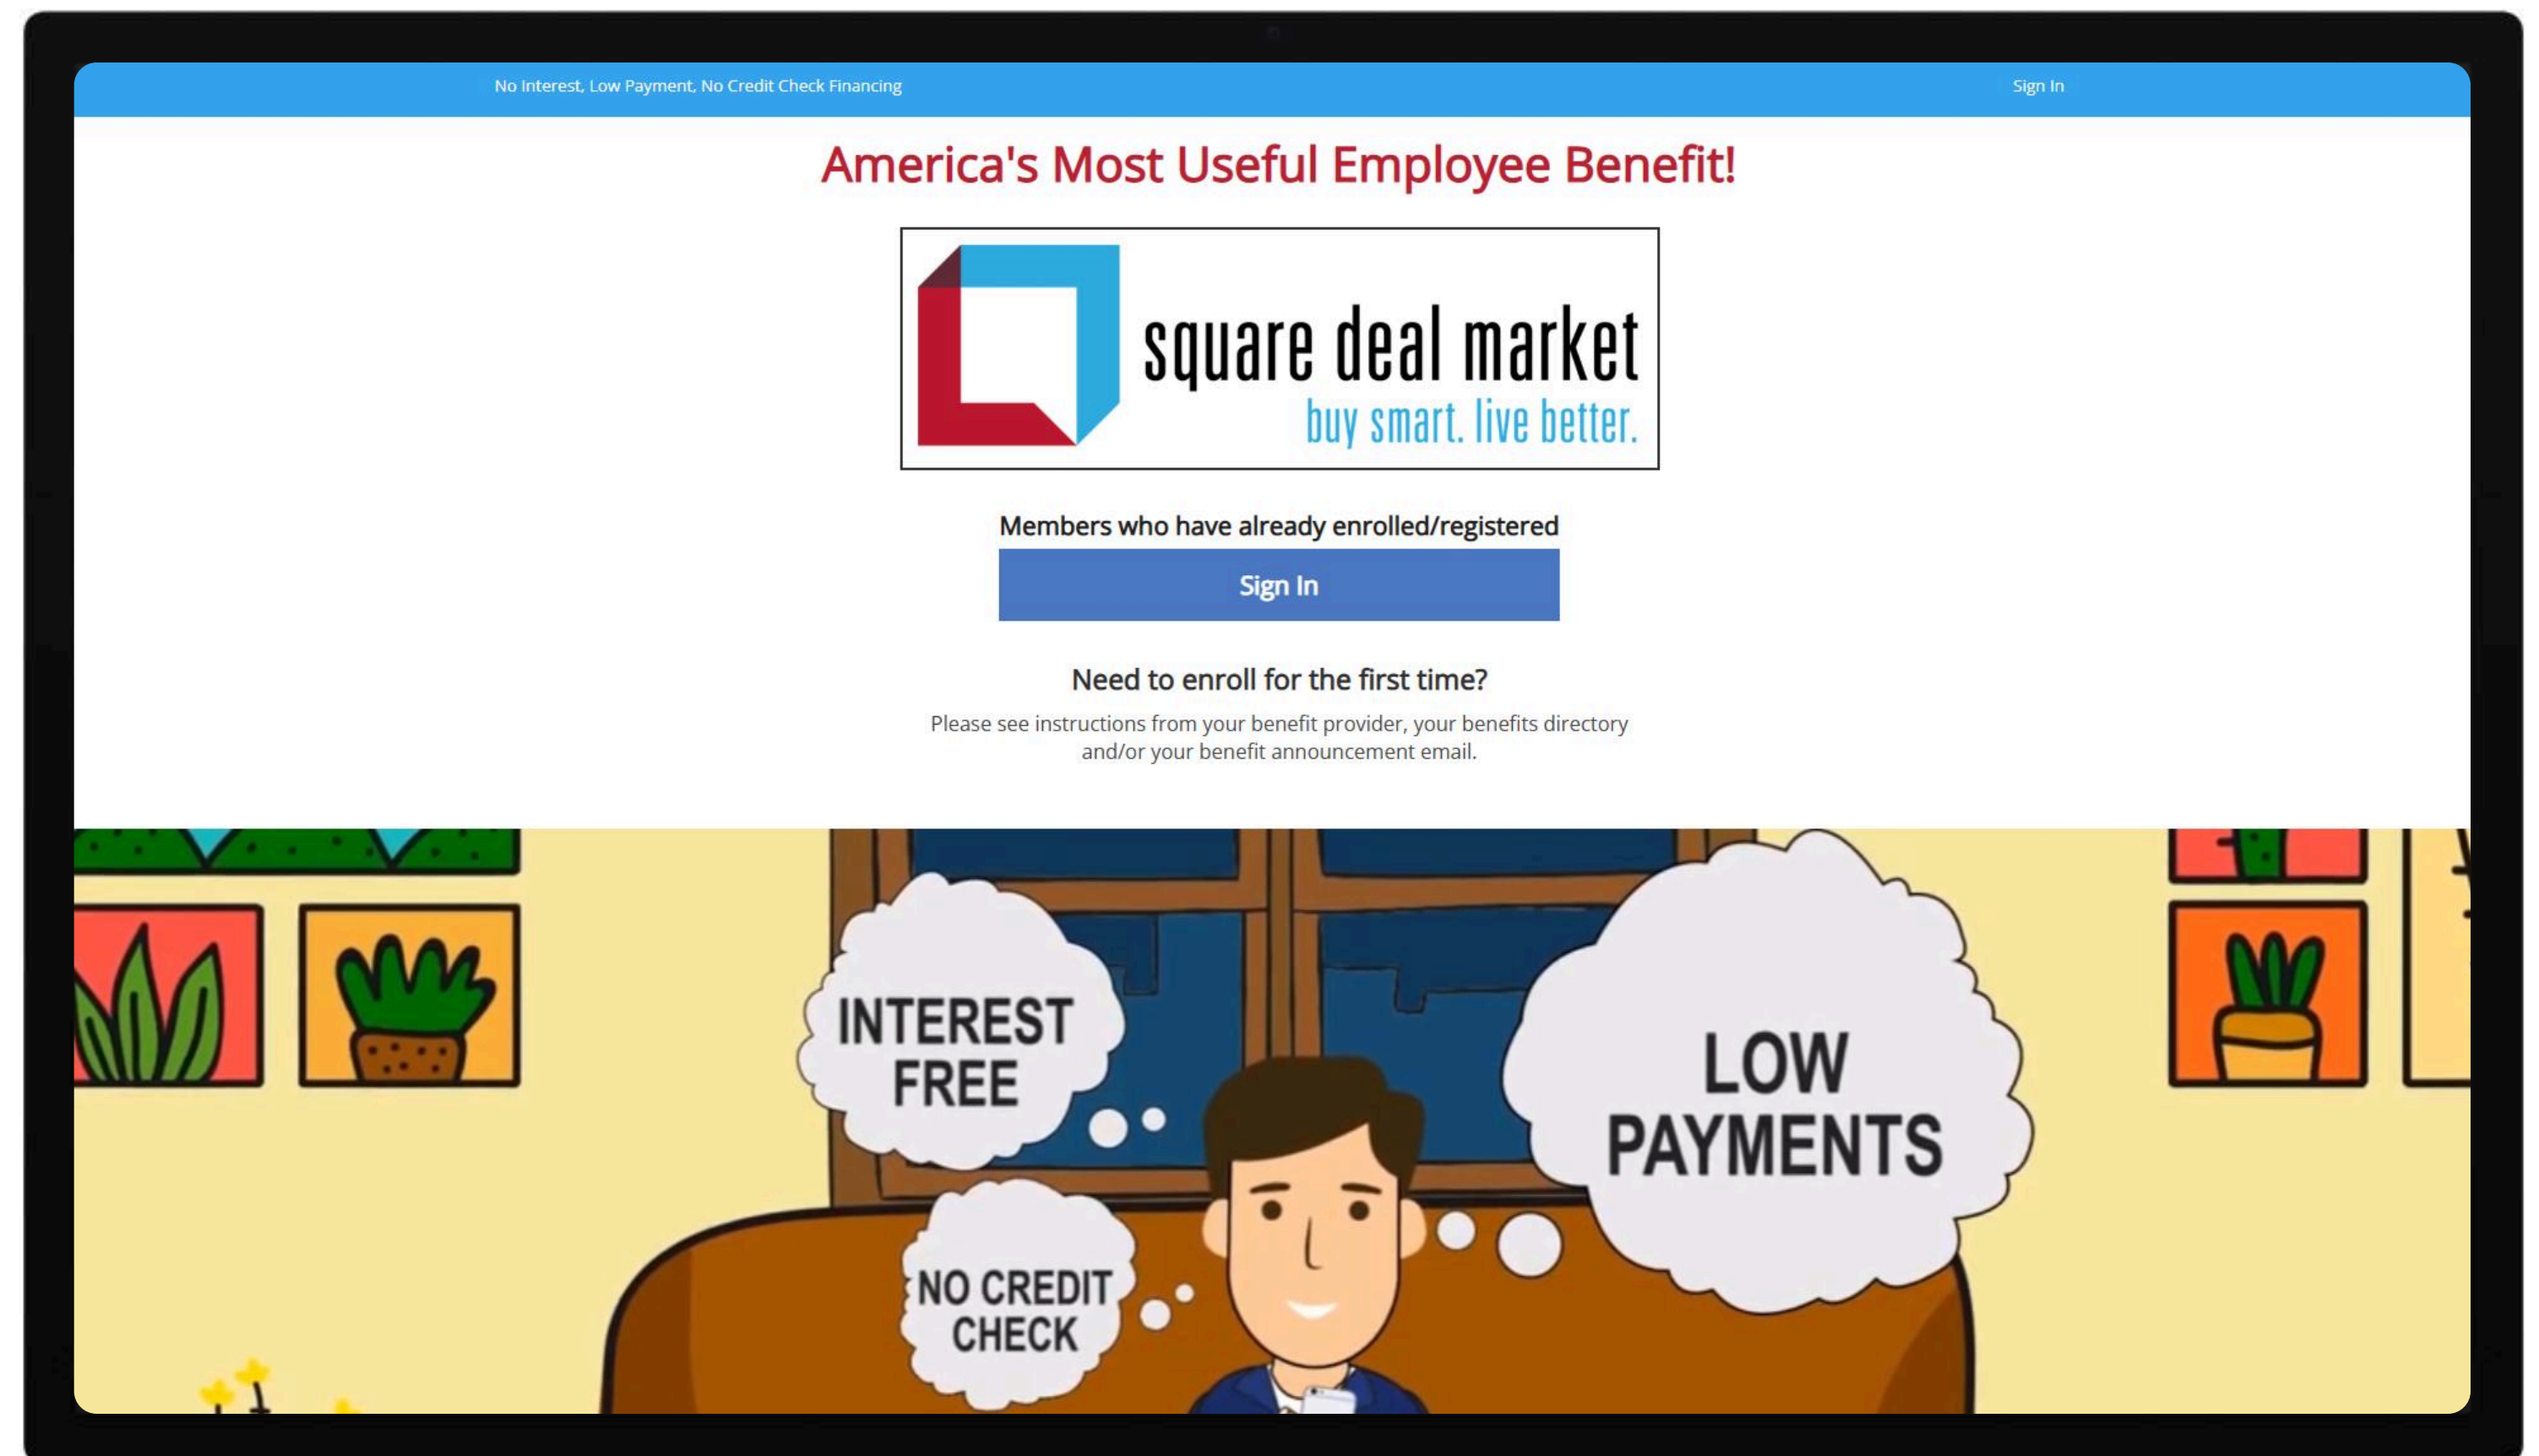

Solutions

Cosmonaut Technologies developed a streamlined, secure web portal tailored to Square Deal Market's unique value proposition. The platform allows seamless user registration, guided enrollment, and benefit access without friction. With an intuitive interface, integrated sign-in, and clear instructional flows, the platform supports thousands of users looking to take advantage of flexible, employer-backed purchasing options.

Fratelli Wines

www.fratelliwines.in/

Business Challenge

Fratelli Wines—rooted in the lush vineyards of Akluj—sought a digital presence that matched the richness of its wines and the elegance of its vineyard estate. Their challenge was to create a seamless online destination that blends storytelling, product discovery, and e-commerce, while also inviting users to experience the vineyard in person.

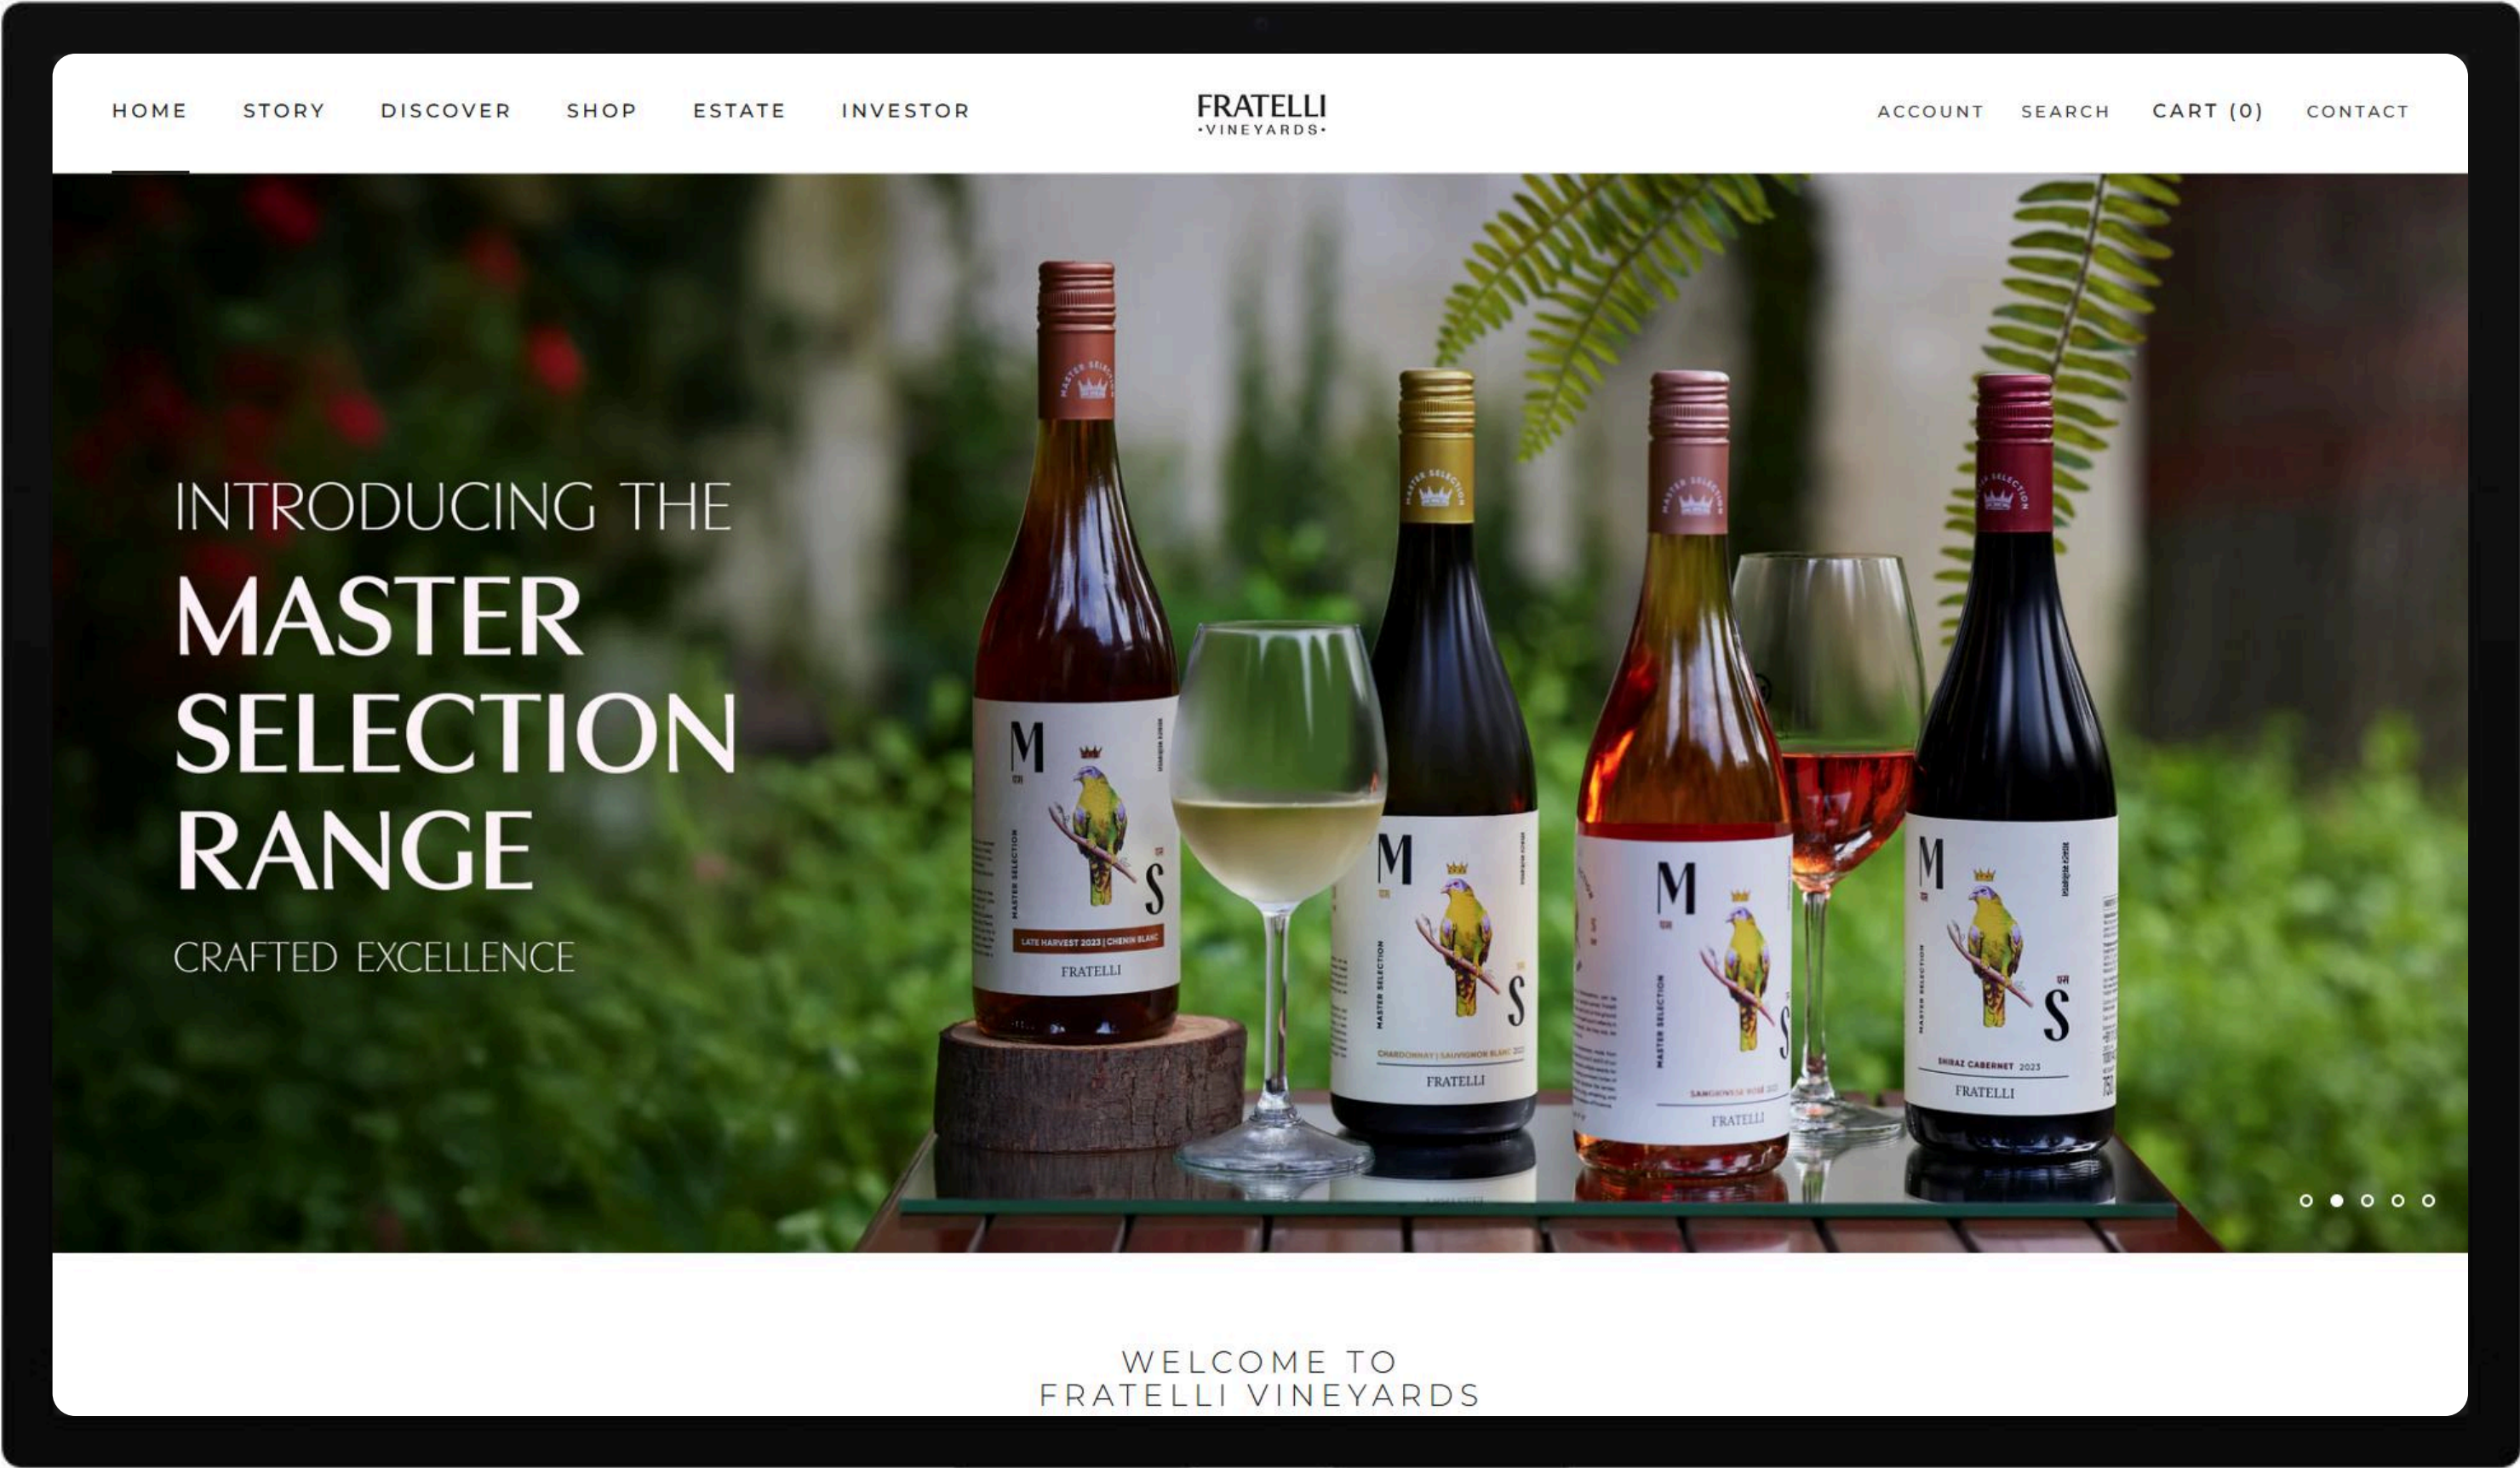

Solutions

Cosmonaut Technologies partnered with Fratelli Wines to craft a refined digital storefront that captures the brand’s artisanal spirit. The platform enables intuitive shopping across wine and cheese categories, elegantly weaves brand storytelling with vineyard tourism promotion, and offers streamlined access to journal features, policies, and investor updates.

Ecopack

www.ecopack.me/

Business Challenge

EcoPack needed a clean, easy-to-navigate digital platform to showcase its line of environmentally conscious food packaging. With a wide variety of products—from clamshells to cutlery—the goal was to clearly categorize offerings by use case (burgers, salads, pastas, and more) while emphasizing sustainability without overwhelming users with technical jargon.

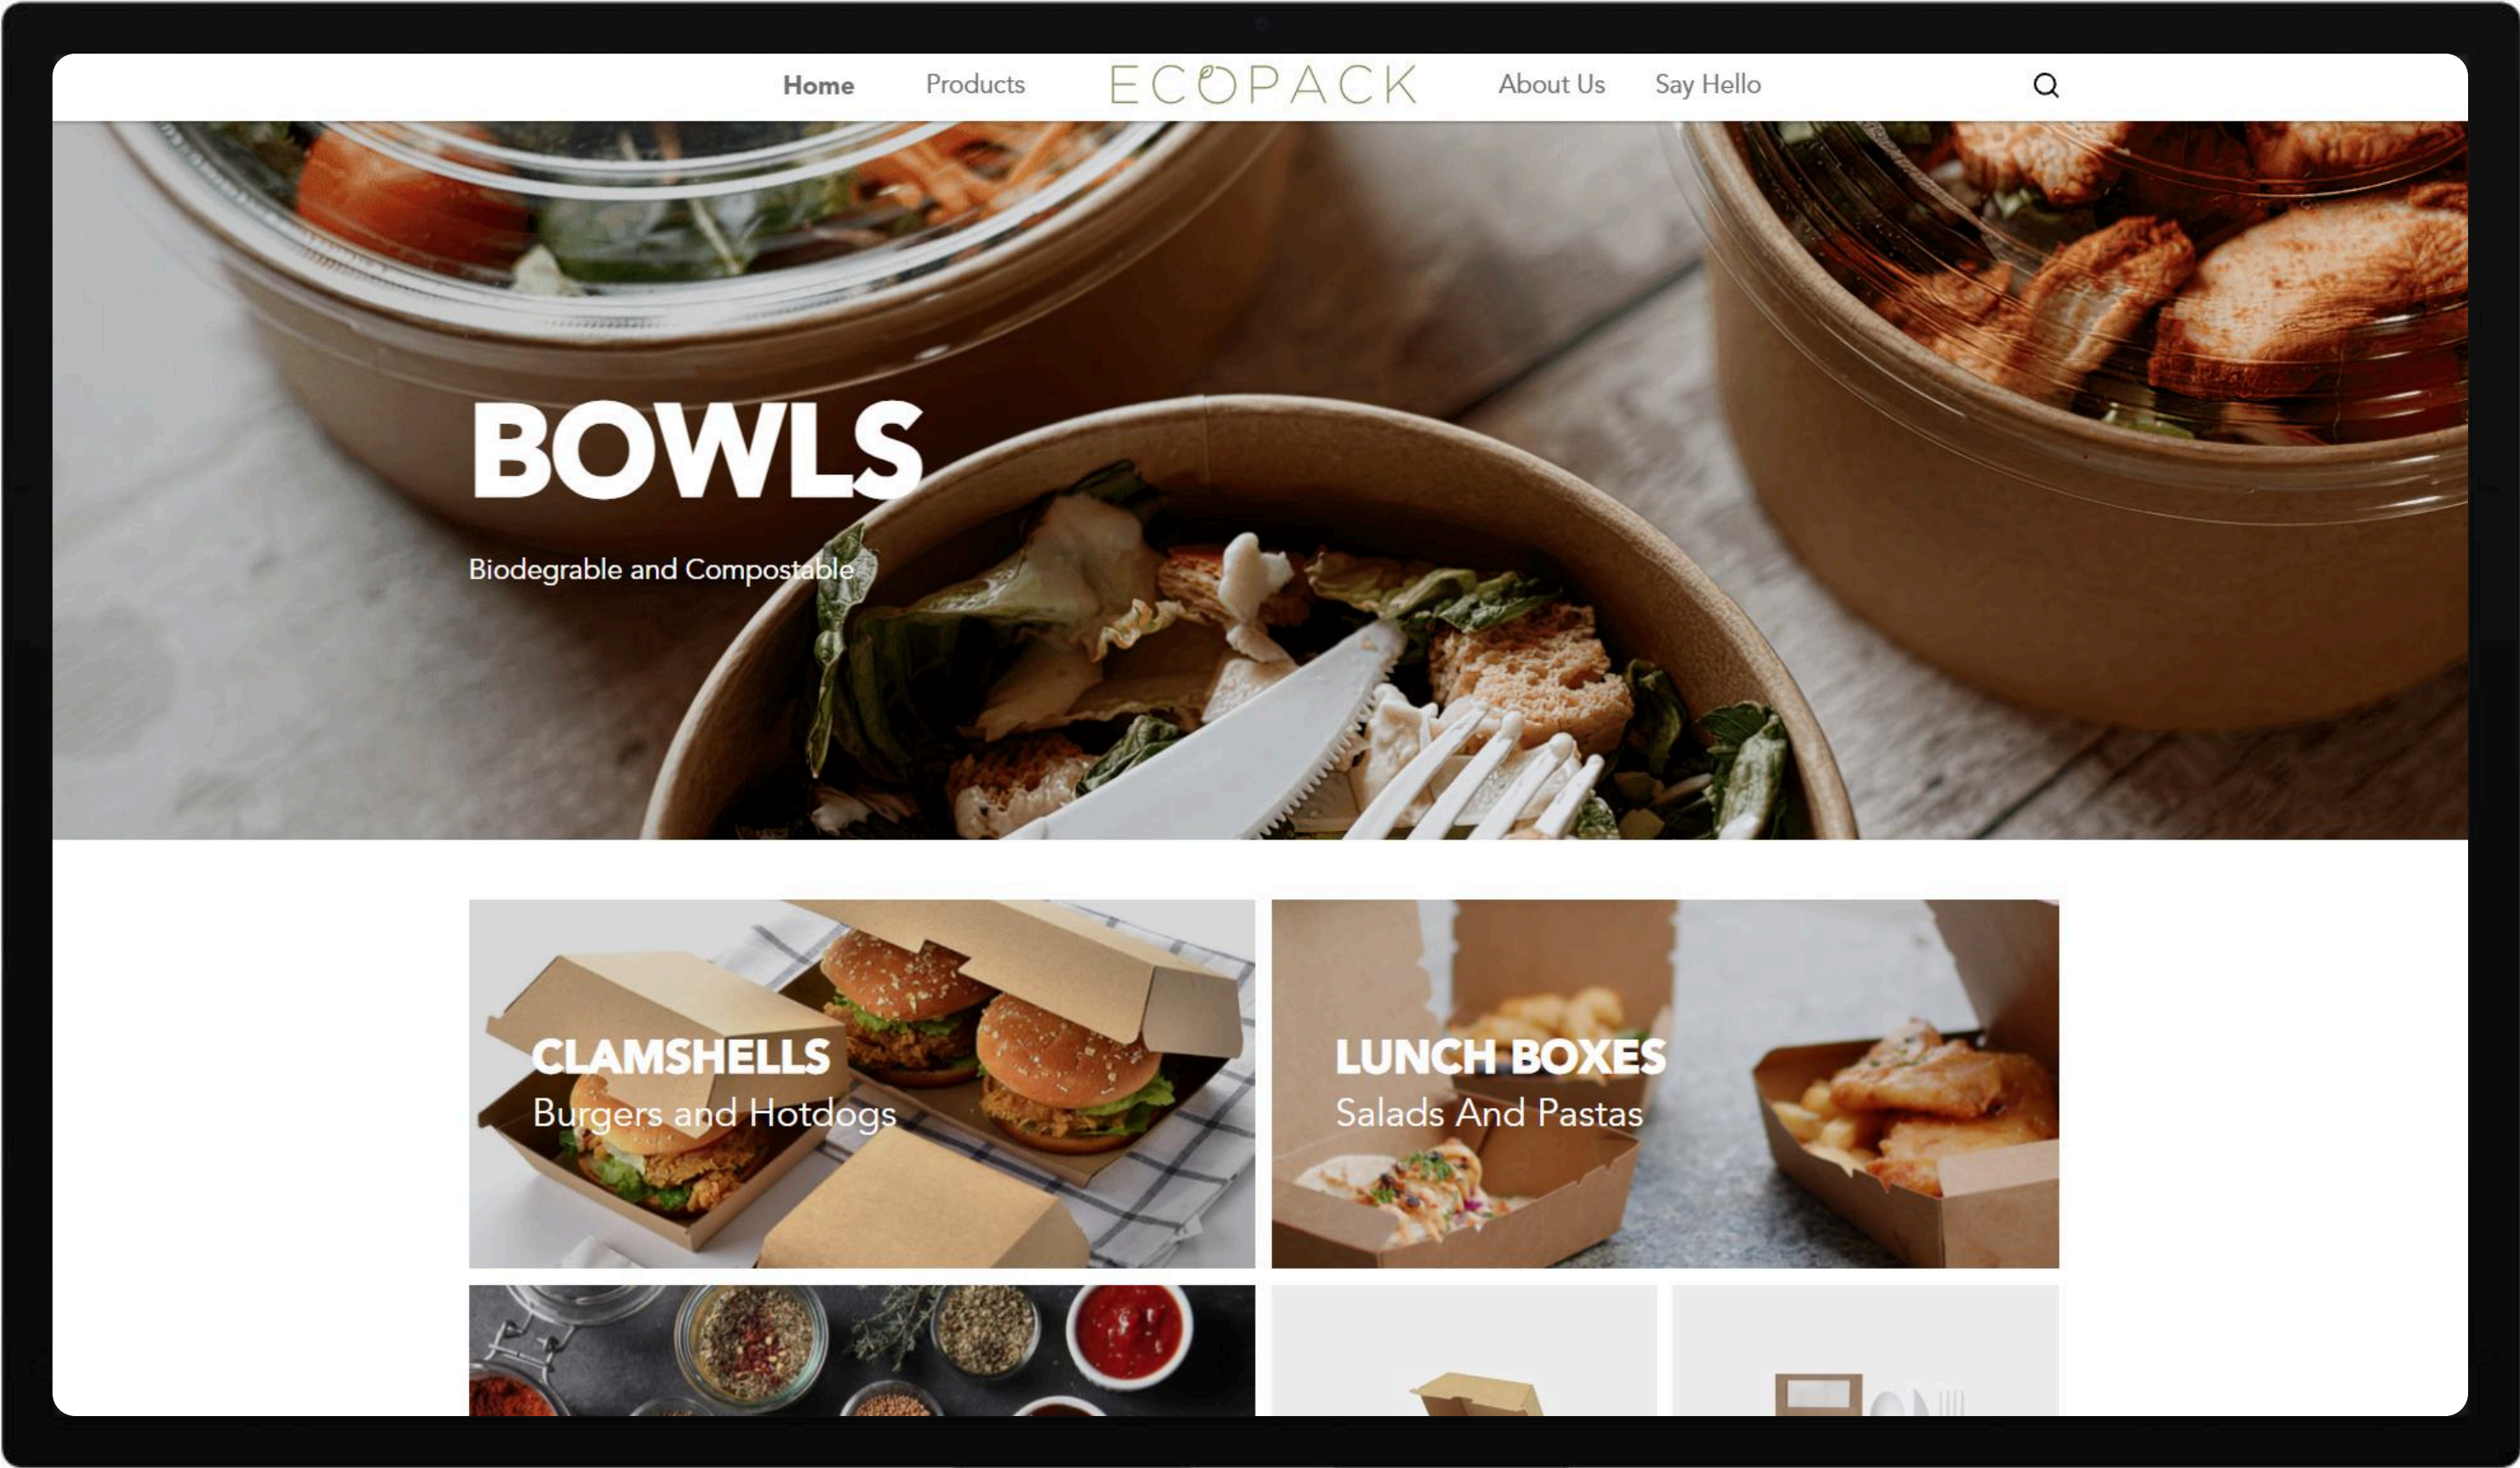

Solutions

Cosmonaut Technologies delivered a minimalist yet intuitive website design that aligns with EcoPack’s eco-conscious brand values. Products are thoughtfully organized by both type and use, allowing food businesses to quickly find what they need—whether it’s lunch boxes, portion pots, or utensils. The design prioritizes clean visuals, quick search, and a friendly “Say Hello” CTA, boosting customer engagement and inquiries.

Align Fitness by Allie

www.alignfitnessbyallie.com

Business Challenge

Align Fitness by Allie needed a digital platform that reflects its unique mission—empowering adult dancers through accessible, science-based cross-training. With a growing global community and multiple offerings (on-demand workouts, 1:1 training, guided courses), the challenge was to create a user-friendly site that inspires confidence, clearly segments the training options.

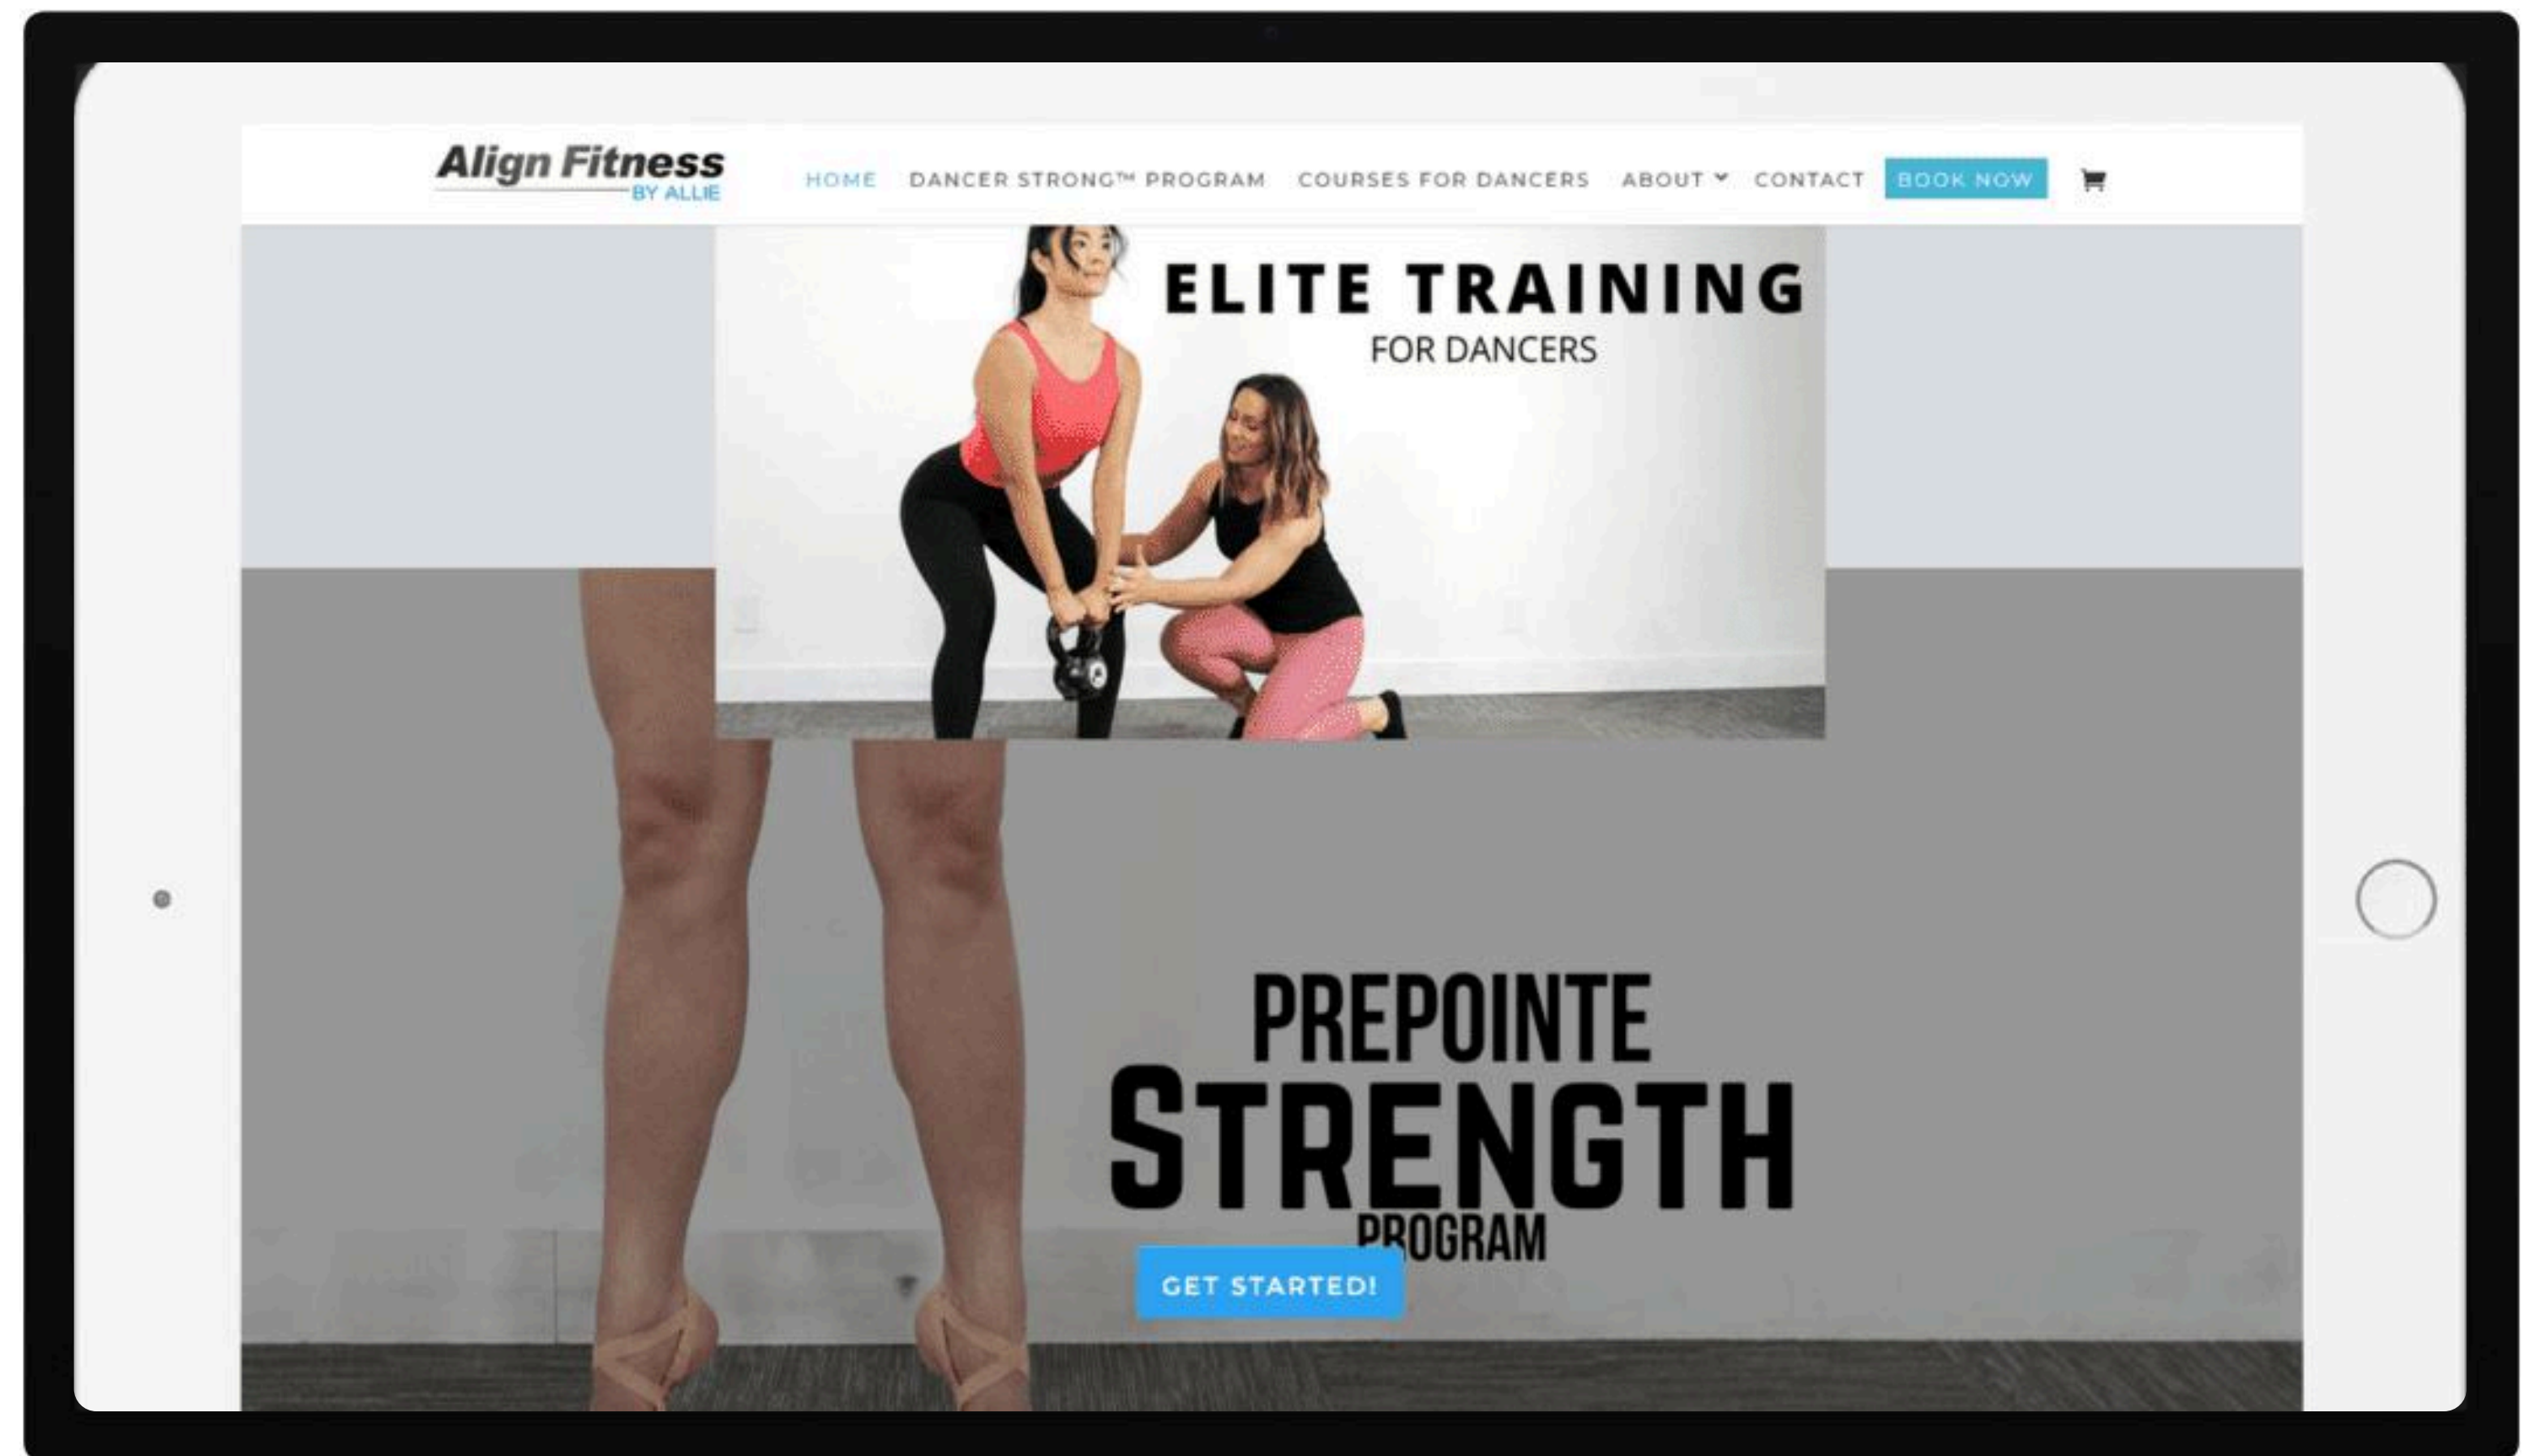

Solutions

Cosmonaut Technologies designed a warm, welcoming, and highly navigable website that embodies Allie's philosophy of intentional, long-term training. Programs are clearly grouped by goal and training format (Courses, On Demand, 1:1 Sessions), making it simple for dancers to jump into their ideal plan. The layout emphasizes accessibility, movement-inspired visuals.
